

Salt Lake City Family Dental Clinic Stays Progressive with the Impressive List of Dental Services That They Offer

January 09, 2021

January 09, 2021 - PRESSADVANTAGE -

Reason 2 Smile dental claims to be one of the most progressive family dentistry practices in the Salt Lake City, Utah area. Evidence of that comes in the form of several dental treatments that they have added or significantly improved upon over the last few years. They also offer such a wide variety of dental services that they can cater to the many different dental needs that all aged members of a family have. This family dentistry specialist does this because they know how inconvenient having multiple dentists in different locations can be when it comes to travel time, billing, conflicting appointments, and establishing a comfort level with the dentists. A complete list of the modern dental services that they offer can be seen here at <https://reason2smiledental.com/our-services/>.

The owner and manager of Reason 2 Smile Dental, Dr. Andrew M. Vernon, says, "We here at Reason 2 Smile Dental like to use a similar philosophy to that of the big chain stores when it comes to our well-rounded and extensive list of oral health services. Our goal is to offer as many top-notch general dentistry services as we can under one roof. That tends to enhance a patient's ability to become more familiar with the compassionate way that we go about doing our dental treatments and, in turn, also increases their comfort

level with us. So if you live in Salt Lake City or its surrounding communities and are looking for a "dentist near me", remember that our dental services have been tailored to meet the needs of everyone from the oldest to the youngest members of your household.

This dedicated family dentist went on to give some examples of the types of services that they now have added or improved upon over the last few years. One of those is their Invisalign services. This hard to see teeth straightening method gets rid of most of the stigma that is associated with wearing braces. It's especially important to the younger ones in a family as they look to improve their smiles without getting unwanted attention. He says that their well-rounded list of family dental services includes exams, teeth cleaning, crowns & bridges, teeth extractions, root canals, and they will even quickly see patients that require emergency dental work.

One other aspect of dental work that Dr. Vernon says is very important to him is to make their treatments as pain-free as possible. He stated that he does this to make sure that none of his patients are ever hesitant to get their important dental treatments done again. Reason 2 Smile dental accomplishes this by using the latest and best numbing and sedation dentistry techniques to comfort its patients and put their minds at ease no matter what type of dental treatments they are about to receive. This testimonial acknowledges this Salt Lake City family dental care facility's efforts in this area. Ogden T. stated, "I would never go anywhere else or recommend anyone else for dental treatments. Dr. Vernon has it figured out. Had a root canal done and it was by far my best experience ever at the dentist. And with a root canal no less. That's how great Andy is. Minimal pain. He is amazing with his numbing medicine. Highly recommend it to anybody and everybody. Especially if you or anybody you know is "scared" of the dentist. There needs to be no fear when coming here. An amazing staff to make you feel at home and comfortable. It's the least amount of pain I have ever experienced with a complex dental procedure." Additional glowing reviews on Reason 2 Smile's family dental services can be seen here at <https://reason-2-smile-dental.business.site/#testimonials>.

Dr. Vernon added that those who would like to know more about the family dental services that they offer can contact them by phone or email. He says that they also feature a convenient online appointment and information request form on the "contact us" page of their website. Reason 2 Smile Dental serves the family dental needs of those not only in Salt Lake City, but also those in such surrounding communities as Mill Creek, Murray, Holladay, Zions Park, Woodside Heights, Winter Meadows, Arcadian Park, and Smithfield.
