

Fort Pierce Dentist Celebrates 25th Anniversary

September 16, 2015

September 16, 2015 - PRESSADVANTAGE -

Dr. James Strawn of Midway Dental Center in Fort Pierce, Florida, has recently announced his 25th anniversary of providing dental services in the area. The dental office has been providing full service cosmetic, restorative, and general dentistry services since opening in the 1990s.

"We pride ourselves on offering quality dental care, along with a compassionate staff," states Dr. Strawn. "This is what has kept us going for 25 years, and we're looking forward to the next 25."

Dr. Strawn states that his office is especially sensitive to patients who may fear going to the dentist and that this is one reason that his office has been so successful over the years. In addition to sedation dentistry, the dentist also provides full mouth restorations, dental veneers, gum disease treatment, and whitening services.

Dr. James Strawn DDS is a native of Florida. After receiving his credentials through Virginia Commonwealth University, and serving as an Air Force dentist for two years, he moved back to Florida to open his practice. Upon returning to Florida to take his Dental Board Exams, he decided to open his practice in Fort Pierce.

With more than 35 years of experience in the dental industry, Dr. Strawn observes, "There has been an advance in the materials used and methods of treatment over the years. Our office is able to provide patients

with the very best in dental care, using a number of advanced treatments and technology to ensure complete patient satisfaction." He believes that remaking a patient's smile is the most rewarding part of his practice, and he aims to continue assisting patients for many years to come.

As a leading dental practice in the Fort Pierce, Florida area, Dr. Strawn and Midway Dental Center are proud to accept new patients, and offer a number of insurance and payment options. The dental practice has gained many repeat patients over its 25 years in service, and plans to provide services to many more in the years to come.

More about the dental office, including a complete list of the dental services they provide, can be seen at <http://midwaydentalcenter.com/>.
