City Of Plano Receives 9.7 Million Dollars In Funding From CARES Act

January 18, 2021 -
Plano, TX-based Bobby Jivnani Plano Dental recently published an article explaining how the City of Plano is set to receive nearly 10 million dollars in funding from the Cares Act. The article is titled ?Plano Doles Out More CARES Act Funding? and goes into detail about how this will affect Plano and its residents.

The Coronavirus Aid, Relief and Economic Security (or CARES) Act was recently passed by Congress with, according to the United States Department of The Treasury, ?overwhelming, bipartisan support,? and was signed into law by the President earlier this year. It allocates over 2 trillion dollars in economic relief for the American people and attempts to safeguard them from the public health and economic impacts of COVID-19. It provides fast and direct economic assistance for American workers, families and small businesses and preserves jobs.

Plano will receive 9.7 million from the 2 trillion set aside, and this money will be used to try and make the COVID-19 crisis a little bit more bearable for the residents of the city. A Community Impact article quoted in Bobby Jivnani?s article says, ?The city of Plano will use close to $9.7 million in funding to reimbursing the cost of public safety salaries during the coronavirus pandemic. The funds come from a direct costs program

created by the Collin County Commissioners Court on Dec. 14, which divides $28.6 million in Coronavirus Aid, Relief and Economic Security Act funding among the eight municipalities in the county. Cities can choose to apply this funding to COVID-19 expenditures already paid or incurred as well as ongoing costs related to the pandemic before Dec. 31, according to county documentation.?

The Bobby Jivnani Plano Dental team hopes that the CARES Act will make life a bit easier for Plano residents ? and perhaps even help them remain in good health. The dental office is run by Bobby Jivnani, a native of Plano who even attended Plano High. He graduated from the University of Dallas with a Bachelor of Science in biology and Bachelor of Arts in economics.
