Emergency Dentist in Walton On Thames Keeps Surgery Open During Coronavirus Lockdown

December 23, 2020

December 23, 2020 -
Walton Dental Surgery, a private dentist in Walton-on-Thames, is offering emergency dental surgery services throughout the coronavirus lockdown. The clinic offers services in general dentistry, adult orthodontics, dental implants, teeth whitening, and more.

The dental clinic is keeping its surgery open to serve patients suffering from toothache. ?The clinic says that the most common cause of toothache, or pain in the region of the jaws and face, is dental decay. Gum disease, ulcers, inflammation around erupting wisdom teeth as well cracked fillings can also cause tooth ache. The clinic encourages patients to call them if there is a need for an immediate appointment. The clinic claims it will do its utmost to accommodate them and help relieve their pain. More details of its emergency dental service can be read at http://waltondental.co.uk/emergency-dentist/.

The clinic offers general dental procedures such as regular check-ups, white fillings, crowns, root canal fillings, dentures, hygiene treatments, onlays, inlays, bridges, tooth removal, and periodontal treatments. They also offer orthodontic treatment options including Invisalign, Invisalign Teen, traditional fixed braces as well as Six Months Smiles. Six Months Smiles is another cosmetic solution for adults with crooked teeth that uses cosmetic braces or aligners or a combination of the two if needed.

The clinic also offers dental implants as a replacement for lost or damaged teeth to render a natural and healthy-looking smile. They also offer dental crowns and bridges to be fitted over heavily filled, chipped, or broken teeth and over gaps in two or more teeth. The dentistry clinic also performs teeth whitening procedures. Teeth are whitened by the application of whitening gel on the teeth through bespoke whitening trays. The components in the gel remove stains off the teeth.

Teresa Kayne, a spokesperson for the dental clinic says, ?We offer high-quality dental care for the whole family. We are pleased to welcome new patients and will make your and your family's visit feel as pleasant as

possible. The practice offers a complete range of dental treatments and also NHS dentistry for children. Our friendly dentists are highly trained and experienced, committed to providing the highest quality dental care, using the latest materials and techniques. We take time to listen and understand your needs and endeavor to help you make the right choices to keep your teeth healthy.?

The clinic has an outstanding 5-star rating from over 45 reviews on its Google My Business Page. The reviews can be read online at the link: https://g.page/waltondentalsurgery. According to a review by Keeley C., ?KP, Manish, and the team have been absolutely brilliant in my smile transformation, it has been a very exciting and almost pain-free process, they have used the latest 3d printing technology and have done a fabulous job on my teeth. I love the final result and I cannot stop smiling. Highly recommend the practice.?

A testimonial on the clinic?s website by Ediane M. says, ?I went to Walton Dental without a recommendation, as an emergency, and I was very lucky to be treated by Dr. KP, who is a fantastic dentist ? efficient and kind, with great patience to explain the treatments needed and even to give me mini-breaks to check on my newborn baby, who needed a quick feed. Laura, his assistant, is also brilliant. Both have light and swift hands, and I was very happy with all the treatments I had with them and shall be continuing my dental care with them in the future.?

Another testimonial by Klaudia S. says, ?I highly recommend Walton Dental Surgery. My son had tooth decay, he?s only 4. The professional and friendly team from Walton Dental Surgery repaired the tooth and made us feel comfortable. The doctor has great experience with children and he made my son not scared of dentists anymore. Thank you very much!?
