

Palisades Dental Offers General Dentistry For Those Who Need A Dentist Near Me

December 29, 2020

December 29, 2020 -
Palisades Dental - American Fork, UT would like to reach out to local residents who are looking for a reliable dental provider that offers general dentistry. A number of people in the area have been searching for a nearby dental practice, and Palisades Dental is more than happy to offer their dentistry services to the people of American Fork as well as those in Lehi, Highland, Cedar Hills, Pleasant Grove, Vineyard, Orem and other nearby towns and neighborhoods. The dental office?s site can be found here: http://palisadesdentalutah.com.

?Here at Palisades Dental in American Fork, UT, we believe that it?s important for you to practice good oral hygiene, and that starts by visiting us every six months for your preventative dental care treatment,? says the dental office. ?The preventative dentistry services we perform during your routine checkup include, but are not limited to, a teeth cleaning, thorough dental examination and dental X-rays. One of the main reasons you should schedule preventive dental care appointments at our office near Lehi, UT every six months is because it allows our team to develop a plan that is best suited in helping you achieve and maintain long-term good oral health.?

At Palisades Dental, they do everything they can to make sure their patients are comfortable and aware of

everything that happens during their appointment. Before starting work on any client, Dr. Jeff Youngquist of Palisades Dental and his team make sure to review the patient?s medical history in order to familiarize themselves with any changes in the patient?s health (such as pregnancy or new medications). During the first part of any Palisades Dental checkup, patients receive a thorough teeth cleaning (built up dirt is removed here, leaving the teeth clean and shiny).

Preventative dentistry extends beyond simply cleaning the patient?s teeth, however. At Palisades Dental, they also examine the patient?s mouth for any potential issues using an angled mirror and probe to check for the softening of tooth enamel, swollen areas behind the teeth and gums, mouth sores and more. The last part of any Palisades Dental checkup is a dental X-ray, which is meant to uncover any problems hidden below the mouth?s surface.

Dr. Youngquist has been practicing dentistry for over 10 years. He purchased Palisades Dental in 2014 and has been serving the people of American Fork ever since. He understands just how incredibly taxing dental work can be for a patient and strives to make sure that every patient?s visit is comfortable and pleasant. A graduate of the University of Minnesota, Dr. Youngquist has devoted a great deal of time to pediatric dentistry, implants and cosmetic dentistry. His experience has prepared him to deal with a wide variety of issues and patients of any age. He is particularly good at fixing broken or worn front teeth and enjoys this the most.

Many of his patients have left excellent reviews on a variety of platforms. Rob Mayo says, ?I find Dr. Youngquist and his staff friendly and cheerful. I feel like they try to make my visit a positive experience. Dr. Youngquist helped me make decisions concerning my potential needs. My experience in their office was delightful, had not been to a dentist for about 20 years. Honestly, I was a little scared / nervous, but the staff was awesome, they treated me great. Lucky for me, they only found a few minor issues, which they will take care of at my next appointment. I was thrilled with the entire experience, and Dr. Youngquist is awesome. As much as I have hated the dentist in the past, I've had a change of heart, and look forward to my regular visits to the dentist. I will be sending my family in as well.?

Another one of his patients, Bradley Powell, says, ?I loved that I got in at the time of my appointment. There was literally no down time. I have never had a dentist appointment done in such a timely manner. I drive from SLC for my appointments, and it?s extremely helpful when my visits are so efficient. Great work. Keep this up.?
