

Used Boom Trucks For Sale At Crane Network

December 28, 2020

December 28, 2020 -
Lemont, IL-based Crane Network, LLC is pleased to announce that they have a wide range of used boom trucks for sale, each of which are listed on their website. Through this platform, contractors have swift access to a wide assortment of cranes and similar equipment.

Boom trucks perform a function that is similar to truck mounted cranes, but they are lighter in weight and usually feature flat beds that can be used to carry heavy loads. They have two to three axle cranes (and sometimes also a tag axle that help provide a lifting capacity of up to 60 US tons). Boom trucks have good roadability, which helps operators bring them to and from job sites quickly and easily. They can also be front mounted or rear mounted, depending on the crane configuration. They also give crane operators the option of having a swing seat or stand up controls.

Other equipment that can be found on the Crane Network website include tower cranes, carry deck industrial cranes, telehandler forklifts, wood chippers, loader backhoes, tractors and so on. Much of this equipment is also available for rent.

Crane Network does more than offer cranes for rent, however. They have made it their mission to connect buyers and sellers of cranes, heavy equipment, parts and attachments for more than 20 years. They are one

of the most established names in the online equipment marketplace, and they have become successful by actively assisting clients in the sale or purchase of their equipment. Their team of sales professionals is always ready to assist clients, helping generate offers as well as providing their input on everything from the evaluation and listing process to the marketing of the machines in question. They also have a network of industry partners who are ready to provide appraisals, inspections, financing, insurance, transportation and many other services.

Crane Network also offers packages for equipment listings and parts listings. Members can choose how many items they want listings for. In some cases, Crane Network also lets them choose whether they want to pay for listings per month or they want to pay for listings until their items have been sold. They also offer featured ads that will help increase their clients? exposure to potential buyers by posting them on the Crane Network?s homepage. Clients can also pay for email blasts that help highlight their companies and equipment on the platform?s worldwide network. Other additional options include social media promotions and optimized search listings which further help clients get their companies and equipment in the forefront.

Furthermore, Crane Network can help magnify a business? online exposure. These services include rotating head banners, equipment listing banners, static sidebar banners and SEO banners

Great things have been said about Crane Network and the services they provide. For instance, Big D Heavy Equipment says in a testimonial featured on the Crane Network website, "Crane Network has been very crucial with our company's sales of cranes and heavy equipment. As a used heavy equipment dealer, Crane Network has increased our exposure to clients throughout the world with the equipment we have available for sale. Not only is the website easy to use, but the support staff is available almost immediately to assist with any questions or help that you need. As for the sales of the equipment, I believe that, if our company would not have started listing equipment for sale on the website, we would not be where we are today. We have increased our sales of cranes to companies worldwide by triple, and it looks like it will continue to rise. We believe that, if you are looking for a way to increase exposure and sales, have the support staff you want and have an easy to use tool, then Crane Network should be the only option for you.?

Katy McDaniel from Dozier Crane & Machinery shares in another featured testimonial, ?Dozier Crane has been utilizing Crane Network for over a decade, both to advertise our cranes and search for new additions to our fleet. Crane Network has been an excellent tool to generate new sales leads and connect with new customers. Whenever we use the email blast function on Crane Network, we always get several responses. The technical support / customer service team at Crane Network is excellent; they respond quickly to any request and are always professional and polite. I would recommend Crane Network to anyone who has a crane to sell or is looking to purchase a crane.?

Those looking for experienced crane brokers are welcome to engage with Crane Network through their official website. The platform also offers additional details about their full range of heavy equipment and more.
