

## **Kingsway Real Estate Brokerage Adds Street Match To Its Services**

*September 17, 2015*

September 17, 2015 - PRESSADVANTAGE -

Akbar Zareh - Real Estate Agent, based in Mississauga, Ontario, Canada, has announced that the Kingsway Real Estate Brokerage has launched the Street Match service. This is a service that allows people the opportunity to be up to date about what is happening in terms of real estate in their street, or any other street. Full details are available on <http://www.akbarzareh.com/>.

"Street Match is a great opportunity for prospective buyers and sellers," says Akbar Zareh himself. "Finding out that there are many houses for sale in a certain street, for instance, can be an indication that it is an undesirable area. This can mean that the time for selling isn't right, and that it is better to hold on to a property. Similarly, it can mean that you may not want to buy in that particular street."

Street Match is easy to use. There is a simple search bar into which people can write the address they are interested in. At that point, they can indicate the type of property they are looking for, and in what radius of the street address they would like to look. By submitting their email address, they will then receive emails whenever a new property goes up for sale in that street.

The service has been very positively received by those who have used it to date. "It was great to see the other houses in my area going up for sale," says one home seller. "It told me a little bit about the prices I could expect for my own property, and it showed me that, while there were some properties for sale in the same area, there weren't too many. I feel confident that I have chosen the right time to sell my home."

Akbar Zareh offers a range of other useful services as well. These include a weekly message with information that can be of benefit to buyers and seller alike, such as the effects of a person's credit score. He also helps people looking to buy a property to find the one that best matches their needs, so they can find their dream home.
