

## **Northern Virginia Property Management Company Now Offers Free Rental Market Analysis**

*September 16, 2015*

September 16, 2015 - PRESSADVANTAGE -

WJD Management, a property management business in Fairfax, VA, is proud to announce that they are now offering a free rental market analysis. As can be seen on <http://wjdp.com>, the company has set itself apart by offering excellent residential property management and leasing services in the area since 1985. Through their analysis, they want to show property owners the benefits of working with them.

"We work with anybody who has properties to rent out," says Maureen Hannan from WJD Management. "Some of our clients have been managing their properties themselves for years, while others are looking for a new management company to work with. Either way, we want to make sure that engaging with our services is convenient and easy to understand. And our free market analysis will show potential clients exactly what we can do for them."

The rental market analysis is an exclusive tool that helps property owners get ready for having their property managed. David Norod, the principal broker at WJD Management, will look at the property and determine its rental value. Norod is a licensed realtor and broker who has worked in the industry for over 30 years, focusing specifically on the real estate market in Northern Virginia.

At present, the company manages more than 400 properties, and property owners have always been happy with the services that have been provided. They have all taken advantage of the free market analysis and have experienced how proper management has benefited them. "When someone comes to us for our analysis, there is no obligation to then start working with us," adds Maureen Hannan. "No information is shared with third parties either. Naturally, we hope that people read the report and decide to come to us for their professional property management services."

WJD Properties offers a number of benefits to clients. These includes a 24 hour tenant emergency hotline and voice messaging service. Furthermore, they provide online tenant maintenance request forms. Finally, the company's broker can be reached via email seven days a week. They also offer a number of other specific services that property owners can benefit from.
