Grace Roofing And Construction LLC Offers Commercial Roofing Services in Winston Salem

December 29, 2020

December 29, 2020 -
Grace Roofing And Construction LLC, a Winston Salem roofing company, is pleased to announce their Winston Salem commercial roofing services. The company specializes in all aspects of commercial roofing from full replacements, commercial roof maintenance, commercial flat roof leak repairs and detection, and silicon coatings. They want to emphasize that roof maintenance is essential by helping building owners save up to tens of thousands of dollars by detecting small issues before they worsen into expensive leaks and by helping the roof last longer. While they are relatively new when it comes to providing roofing services, this can actually be an advantage for clients.

Richard Sakowski, owner of Grace Roofing And Construction LLC, says, ?Although we are a relatively new company, we think this will actually be to your benefit when you require a roof replacement or roof leak repair. We?re big enough to deliver the exceptional workmanship and professional performance that local businesses expect - and at the same time, we?re small enough to consider every client we meet valuable. The benefit of us being the new commercial roofing company in Winston Salem is that we will work the hardest for you.?

Richard Sakowski also wants to stress the various factors that make Grace Roofing stand out among other commercial roofing service provides in Winston Salem and neighboring areas. These include: their CertainTeed certification; competitive pricing; A+ BBB rating; 10-year workmanship warranty; their commitment to professionalism, transparency, and friendly service; and their team of roofing professionals who believe in supporting local businesses.

One of the common commercial roofing services they provide is flat roof repair. The flat roof is often preferred for commercial buildings because of its flexibility, ease of maintenance, accessibility, cost-effectiveness, faster installation, more space available, and durability. Thus, Grace Roofing is often called on to repair flat roofs. They offer CertainTeed certified flat roof installers to ensure clients of quality service and they always

use premium, guaranteed materials for each project.

Another popular kind of roofing Winston Salem NC companies can expect Grace Roofing to provide is metal roofing. Metal roofing systems are actually the most popular kind of roofing for commercial buildings. The usual metal roofing materials for modern buildings include: corrugated galvanized steel; painted or stone coated metal sheets; standing seam metal; a blend of aluminum, zinc and silicon-coated steel; copper roofing; stainless steel roofing; and aluminum roofing.

Meanwhile, while metal roofing systems require minimal maintenance, it is still essential to have metal roofs inspected regularly because they could be affected by rust or corrosion. It is also recommended that metal roofs be provided with coatings to extend their lifespans. Possible metal roof coatings include solvent-borne aluminum, rubberized aluminum, waterborne acrylic, polyurethane, solvent-borne styrene-ethylene butylene styrene (SBS), and more. And polyurethane and urethane coatings offer the best when it comes to strength. And finally, Grace Roofing provides comprehensive siding, guttering, and flashing repair, replacement, and installation.

With regards to the quality of the roofing services offered by Grace Roofing, this is attested to by the highly positive customer reviews they have been receiving. In fact, they currently have an overall rating of 4.9 out of 5 stars on Google. In one five-star review, Anders H. said, ?Had water coming in through our bathroom ceiling. One call relieved my concerns. They came and checked the problem and suggested ways to fix it. Excellent service. Great at keeping in touch. Performed everything they said they would. Information I received satisfied all my concerns. Great job!?

In another five-star review, Carroll E. said, ?This company has a reputation for excellent, efficient, timely service and I can attest to that. Richard was courteous, pleasant & professional. I won't call anyone else. Thank you for providing such great service.?

When requiring the services of a roofing company Winston Salem NC residents may want to check out the website of Grace Roofing And Construction LLC, or contact them on the telephone or through email. They may be contacted 24 hours a day, at any day of the week.
