

Roof Royale Offers Repair Services In Austin

January 04, 2021

Hutto, Texas - January 04, 2021 - PRESSADVANTAGE -

Hutto, TX-based Roof Royale is encouraging Austin homeowners to get in touch today if they believe their roof needs repairs. The company, which has accumulated a great deal of experience in the industry over the years, will be pleased to inspect their customers' roofs and determine whether repairs are necessary. They also urge their community not to hesitate to contact a professional roofer if they suspect anything is wrong.

"Your roof is an essential part of your home," says Tony Schlessinger of Roof Royale, "and you must not take it for granted. Today, in this age of smartphones and digital assistants, it is really easy to set reminders for yourself regarding any important subject or event, so we encourage you to consider creating a recurring reminder for roof inspection and maintenance a couple times a year. This will help ensure that you always know when it's time to have your roof professionally inspected. Roof Royale can then resolve any issues that may be uncovered during this process."

Inspections and maintenance are important for one major reason: it gives homeowners an opportunity to discover problems with their roof well before a critical threat is posed to its structure. Should an issue get to this stage, repairs may be out of the question, and the homeowners might then be forced to pay for an entirely new roof that costs much more than a repair would have. A roof installed by a competent professional, such as those who work at Roof Royale, is intended to last for decades, and its lifespan can be extended via regular maintenance.

One of the most common causes of roof degradation is storm damage, which can batter or tear at a roof's integrity to the point that small holes start to show through. On one hand, this can reduce how effectively the roof protects the house from the elements, negating its purpose in one or more areas of the property. Should a hole or similar types of damage go ignored for too long, however, they can become worse over time, eventually posing a severe safety risk to the house's inhabitants and forcing the homeowner to invest in a new roof.

Today, with many people choosing to stay safe at home due to the ongoing health crisis, an unstable roof would only add to a family's discomfort. Fortunately for Austin's communities, Roof Royale considers a prompt response and excellent customer service to be essential aspects of their work as well, so a homeowner will not need to wait long to have their roof fixed once they request the company's help.

Austin residents may refer to Kathryn Hall's 5-Star Google review for more insight on how the company approaches any job. In her review, where she commends the roofing contractor for the professionalism they displayed, she says, "Me and my husband would recommend this company for anyone needing a new roof or repair. We had damage to our 20 year old roof due to hail and high winds. Roof Royale came out and made a temporary repair quickly, and at no cost to us. They got us an estimate within two days for a full replacement. I received multiple other quotes, but this company had the best price with the best products."

She adds that the company, "even got our insurance to pay for most of the cost due to hail and wind damage, and they could get our roof done in 1-2 days (which was great because we have a 5 month old and a dog that does not like loud noise). They communicated with me throughout the entire process and returned my emails within hours each time. The guys completed the job in 1.5 days. They cleaned up after the job was done and were on time every morning. We appreciate how quickly they worked and that they did not leave a mess. Our new roof looks great! The entire process only took a few weeks (delayed due to COVID restrictions on insurance's part)."

Roof Royale is comprised of local, full-service Austin roofers who are dedicated to their work as well as to the communities they work with. Homeowners in need of Austin roof repair are welcome to contact Tony Schlessinger directly to schedule an inspection or other roofing service. Despite the challenges posed by the pandemic, the company asserts that they will do their best to respond promptly to every customer.
