

OKC Body Shop Offers Free Estimate On Auto Hail Damage Repair Services

September 17, 2015

September 17, 2015 - PRESSADVANTAGE -

Hail Restore, a business in Oklahoma City, OK, has announced that they will now be offering free estimates to people who have experienced auto hail damage. The body shop Moore, Oklahoma residents can go to and which has been operating since 2007, has been at the forefront of repairing automobile bodies in Oklahoma City that have experienced hail damage. It is believed that this year, being an El Nino year, will bring about many more storms, leading to more damage.

Chase Moore from Hail Restore says: "No matter how hard we try, we simply cannot control Mother Nature. Unfortunately, for residents of Oklahoma City, this means that the likelihood of their cars becoming damaged is high. Repairing this damage is often an urgent job and we are ready to take it on. We are one of the only companies in the area, however, who does this while first providing a free estimate."

Many businesses that offer vehicle hail damage repair services depend on the fact that people will simply tell them to do the job because it is so urgent. For Hail Restore, however, this is an unfair practice. They always check on a car first, assess the damage and provide a free, no obligation quotation. If people agree with the quotation, they will go ahead with the repairs straight away.

The company, which has been rated A by the Better Business Bureau, has long been at the forefront of creating innovative solutions for serious problems caused by storms. In May of this year, they announced that they were supporting a loaner car service through their collision repair Edmond service for people whose vehicles had been damaged by hail storms. Again, they are one of the few companies in the area who offer this type of service.

The work provided for auto body repair Norman, Oklahoma residents can depend on has always been positively reviewed. "Hail Restore is top notch," says Chase T. "James and his team under promise and over deliver every time. I loved working with you all." The company has made it its mission to ensure people do not suffer unnecessary hardship due to the wrath of Mother Nature, and their latest free quotation on any job is just the latest in a long string of actions that demonstrate this.
