

Massage Spa Center In Singapore Now Offers Corporate Packages

September 17, 2015

September 17, 2015 - PRESSADVANTAGE -

Yelin Enterprise PTE Ltd, a business with three different massage clinics in Singapore, has announced the addition of corporate massage packages. These packages are delivered on site, helping employees to become more relaxed and, thereby, more productive. Different packages are available and interested businesses may want to contact Yelin Enterprise through their website.

"A 15 minute massage can increase productivity by as much as 20%," says Yee Yon Fai from Yelin Enterprise. "We have great packages in place and bring our service to our clients. This means they can have a masseur stationed in their office for all employees to enjoy. The benefits to the business are tremendous and they can even see a return on investment."

Scientific research has demonstrated the various benefits offered by massages. For instance, massages have been shown to help increase workplace morale and relieve both stress and fatigue. These two elements alone can greatly improve overall productivity. Additionally, it has been demonstrated to make people more alert and more creative and to help improve brain power.

Yelin Enterprises assures clients that they can go to their offices and provide mobile masseurs. In addition, all masseurs have been ascertained to be fully qualified and know how to provide a service that is customized to the needs of the individual. The company also provides a single point of contact but, when it comes to massage Singapore can be covered in its entirety. Besides being very convenient, the service is also highly trustworthy, with clients' confidentiality being of the utmost importance.

Other clients have already reviewed the service very positively. "Wow, that was just a great massage experience!" says Lai Yhao. "I must check my calendar and schedule another massage with them! Love it!"

The company is also expanding its in house services. "We encourage anyone to check out our outlets in Singapore," adds Yee Yon Fai. "While we currently have three clinics, we intend to open more as we notice many of our private customers wished we were more conveniently located." At present, the company is located on Aljunied Avenue, Tampines and Ang Mo Kio Avenue.
