It needed a thorough pressure washing as I was having it painted another light color. The price was so reasonable, in my humble opinion, that I did not need a second quote! They came when we agreed and did an excellent job! My husband requested that they give it another once over, to which they did without complaints. Our technician, Gary, took out the brush and got it spotless. We will be using them in the future as the house will be farmhouse white! What can I say?! Love the bright colors. Excellent service."

The company would also like to highlight that their power washing contractors are conscious of the environment. They use a soft washing method for roof cleaning, deck cleaning, fence cleaning, gutter cleaning and siding cleaning that is safe for the environment, the client's family and even their pets.

The company's attention to detail is also an aspect which is frequently praised by their clients. In a testimonial on the company website, Jean I. states that, "Pierce did an outstanding job at my home today. He cleaned everything outside: brick, deck, patio, pool deck, driveway, sidewalks, curbs, fence, brick mailbox ? everything. He was on time, professional, very knowledgeable, meticulous, friendly and courteous. He really cares about doing an excellent job. Best experience I have ever had with someone washing my house.
