

Osteopathy And Acupuncture Clinic In London Now Offers Online Booking

September 18, 2015

September 18, 2015 - PRESSADVANTAGE -

FORM CLINIC, an osteopathy and acupuncture clinic in London, United Kingdom, is proud to announce that they have now added a facility to their website that allows people to book their appointments online. As can be seen on www.formclinic.co.uk, the added feature is easy to use and people can choose the type of treatment they want, who with and on what date. Information about prices is also automatically included. Meanwhile, people will also be able to continue to make appointments over the telephone.

"We decided to add an online booking facility to our website for the convenience of our patients," says Mohamed Taha from FORM CLINIC. "While our opening hours do extend beyond most working hours, many people simply do not have the time to telephone and make an appointment. However, most people spend some time online every day, so should be able to use our new facility with ease."

The clinic is based in Central London and services the Soho, Marylebone, Mayfair and Fitzrovia area. They offer both acupuncture and osteopathy treatment, including initial consultations and follow up appointments. They also offer emergency treatment, as well as full treatment packages.

FORM CLINIC currently employs three osteopaths. The principal osteopath is Mohamed Taha and he is joined by Poonam Shah and Satnam Ubbey. All three are fully trained and licensed osteopathy practitioners with a commitment to their continuous professional education. "Our team is always at the forefront of new developments in the world of acupuncture and osteopathy," adds Mohamed Taha. "We want to make sure our patients receive the best possible treatment, care and attention and actually notice the benefits of having their treatment completed by us."

The clinic specializes in acupuncture, osteopathy and massage treatments. The three specialists have many years of experience dealing specifically with neck, back and joint pain. Additionally, as can be seen on their website at <http://www.formclinic.co.uk>, they deal with patients who suffer from sciatica, sports injuries, whiplash, postural problems, pregnancy pain, headaches and post-partum problems. Those who are interested can book an appointment with the clinic as soon as possible using the new facility or via telephone.
