D.I. Auto Care Is Offering Auto Detailing Services In Phoenix, Scottsdale, And Ahwatukee

April 16, 2021

April 16, 2021 - PRESSADVANTAGE -

D.I. Auto Care is offering services such as interior and exterior detailing, waxing, buffing, window tinting, auto glass, windshield replacement, ceramic coating, smoke removal, and ozone treatment in the Ahwatukee, Phoenix, and Scottsdale area. The company offers its services on all kinds of cars, trucks, motor coaches, RVs, planes, boats, and high-performance cars. The founder of the company, Paul, has been detailing cars for over 34 years. He has a 5-star rating on Google and Yelp. The company is insurance approved making the process seamless for the customer. The company says they are the best option for auto detailing in Phoenix.

Paul, says, "Auto detailing is not what they think is easy to do. It isn't. In fact, a proper auto detail can add hundreds of dollars of value to the value of your vehicle. Our professionals have seen it all and done it all. Whether it is interior or exterior detailing, by signing up for our service we guarantee that you are giving your car the best care that it can get and deserves. We use the best materials for both the exterior and interior detailing of the car. We follow a strict evaluation process to inform the customer about the overall condition of their vehicle. You get more than what you asked for when you decide to have your car detailed with us. We use our knowledge to save you problems in the long term by doing the best job we possibly can,

today. We are professionals with abundant experience and a strict work ethic.

The company says that mobile auto detailing can help car owners to save time, money, and headaches. Customers can ask a mobile auto detailing professional to come to their home or office at their convenience. The car can be washed and waxed onsite while they are attending to more important matters. The company says that mobile auto detailing makes a lot of sense if car owners have a packed schedule and don't have time to take their car to an auto detailing center or the dealership.

Before the car is detailed, the company performs an evaluation of the whole car based on three pillars. The first and most important briefing is the condition as the exterior of the preowned vehicle is the first thing seen when seen from the outside. The company says that while detailing, the first step is to clean up the vehicle through good body painting. The second detailing practice is wheel and tire detailing. Wheels of good autos can endure black stains usually due to the corrosion of the rim from brake dust. If the wheels do not get regular cleaning and the proper waxing, the increased tire effort will have to be put forth to groom the vehicle more often. The third pillar is the interior of the car. When the detailer has tended to the exterior, the interior detailing will finally lead to the quality of the interior. The vehicle interior is a common need for how the vehicle has been maintained and used for by the user.

The company says that a professional detailer will take pride in their work and strive to provide a personalized service that makes their customers happy. A mobile car detailing professional will have convenient equipment, and appropriate cleaning materials to do a good job. A car wash may not provide the same level of personalized service. The company says that once the customer finds a professional who provides great service at a fair price, they can consider scheduling sessions at regular intervals. There is no need to keep track of when the next session is due. The professional will remind the customer about it and show up at a convenient time.

The mobile detailing company is located at 4747 E Elliot Rd, Phoenix, AZ 85044. It can be reached at the phone number (480) 233-1529 via phone call or text. The business is open from Monday to Sunday from 5 am to 10 pm.
