D.I. Auto Care Offering Interior Detailing Services In Phoenix 05.14.21

May 14, 2021

May 14, 2021 - PRESSADVANTAGE -

D.I. Auto Care is offering mobile auto detailing services in Phoenix, Ahwatukee, and Scottsdale areas. The company also offers other services such as window tinting, auto glass, ceramic coating, smoke removal, ozone treatment, and pet hair removal. The company claims to be the best option for interior detailing in Phoenix.

D.I. Auto Care specializes in auto detailing of cars, trucks, motor coaches, RVs, planes, boats, and high-performance cars. The founder of the company, Paul, has been detailing cars for over 34 years. He has a 5-star rating on Google and Yelp. The company is insurance approved making the process seamless for the customer.

The company's mobile car detailing services are made for customers with busy schedules who need their car to look clean and presentable. The company can schedule mobile detailing at a time and location that is suitable for the customer. This means they don't have to go out of their regular timetable to fit in a car

detailing. The company brings its professional array of equipment to the car's location to have it thoroughly detailed. The company says that it has enough experience detailing all kinds of vehicles so that no job is out of its wheelhouse.

The company says that it can perform services that will lead to preserving paint condition, restoring interior seats, carpet shampooing, increasing the resale vehicle value, ending up with a clean and shiny vehicle. The company also performs engine detailing, light scratch removal, ceramic paint protection, and makes sure that all the car's leather is cleaned and conditioned.

The company says that the detailing process is extensive, but normally, it does not include any corrective actions like the removal of the bad paint or the removal of the rust. It is a restricted type of service that is not restricted through detail action for a vehicle that eliminates the need for a major mark. According to the company, detailing is now an existing business venture and it is growing fast. Many people are now finding it a lucrative investment for purposes of investing. It says that car owners need to hire a detailing service provider who is experienced and who offers the best service.

The spokesperson for the company, Paul, says, "We have been performing all kinds of car detailing on vehicles for over 34 years. We have a 5-star rating on Google and Yelp because of the quality of our work and excellent customer service. When a car comes to us for interior detailing, we analyze the damage and form a plan of action. Every nook and cranny of the car is vacuumed and cleaned. Cloth seats shampooed and dried are put back into the car to restore them to their original glory. With my experience and expertise, there is no challenge too difficult, and no car too messy to clean. We get into the grimmest corners of your vehicles and give them a thorough cleaning. We use all the proper cleaning materials on the correct areas of your car. We make sure that there is no damage due to the use of improper materials on improper surfaces because we have the knowledge from our extensive experience. I have worked with every car model imaginable. It makes me the go-to technician that you should call if you ever need the interior of your car detailed."

A testimonial of the company's service from its Google Business page says, "I got referred from a co-worker to get my new Tesla X Detailed and have the windows tinted. I called d.i. Auto Care came out to my work and had my car looking amazing in a few hours." Another review says, "I just had Paul detail my Aston Martin to protect it from the summer heat. My car looks better now than when I bought it. Awesome Service!!" Another 5-star review says, "Fantastic! My car looks brand new. Very thorough interior detail and was on time and very courteous. Highly recommend." Another 5-star review says, "They arrived on time Replaced and Re-calibrated my windshield to factory specs. Awesome service will use again."
