CTX Dumpsters Announces Availability of New Dumpster Rental Containers in Georgetown TX

January 07, 2021

Round Rock, Texas - January 07, 2021 -
CTX Dumpsters is excited to announce that it has acquired new dumpster rental containers in different sizes to ensure that homeowners, roofers and construction companies in Georgetown can now easily access cheaper dumpster rentals. The company claims that it now has clean, well maintained dumpster rental containers in the following sizes: 10 yard dumpsters, 13 yard dumpsters and 15 yard dumpsters. According to the size dimensions listed on their website, a 10 yard dumpster can accommodate up to 10 cubic yards of waste and so forth. However, this seems to be subject to the type of waste, junk or trash a customer is looking to dispose of.

CTX Dumpsters is a locally owned and locally run dumpster rental service that was founded by Jeremy Thrailkill. It has been operating in Central Texas for quite a while before expanding to the Georgetown area. According to Mr. Thrailkill, CTX Dumpsters was born out of a need to bridge a gap in the dumpster rental industry in central Texas.

?Many years ago when I moved to central Texas, there was a time I needed to renovate a property I was moving into at the time. Finding a reliable dumpster rental service to rent a dumpster for the waste disposal

part of the project was a hurdle. I finally rented a dumpster with a company, only to find that the company had so many extra charges and was not even the least reliable when delivering or picking up the rental dumpster. I then came up with an idea to partner with a friend and start a reputable dumpster rental business that would not only provide low-cost dumpster rental services but also provide top-notch customer services and on-time deliveries to homeowners, contractors and companies,? stated Mr. Thrailkill, Founder and CEO of CTX Dumpsters in the press release.

According to information found in the company?s About Page on their website, CTX Dumpsters offers cheap dumpster rental containers to homeowners, companies and contractors in Georgetown and the surrounding areas. They have dumpster rentals in different sizes and they provide roofing dumpster rentals, residential dumpster rentals and construction dumpster rentals. Besides Georgetown, CTX Dumpsters also service other cities in central Texas including: Taylor, Pflugerville and Leander, just to name a few.

According to one of several customer reviews found online, CTX Dumpsters appears to be a reputable dumpster rental company that offers dependable and affordable dumpster rental services to its customers. Below is a glowing review from one customer who apparently rented a dumpster from the company during the recent quarantine period.

?During quarantine, the wife and I decided to do a few DIY construction projects around the house and accumulated too much trash to dump by ourselves. So we decided to call around and CTX Dumpsters seemed to be the most affordable solution. They answered all of the questions promptly and talked us into a smaller option which made me feel even more comfortable 'cause I wasn't sure about what size to get at the time. Their delivery driver Brian was also very friendly and very informative on all the best practices when using the dumpster. Overall couldn't have gone any better. Thanks again CTX,? says Susan T.

If one has a roofing job coming up, a residential project or a construction project in January or the coming months, check their website for more information regarding the services, pricing and dumpster size containers offered by the company.
