D.I Auto Care Provides Window Tinting Services In Ahwatukee

October 15, 2021

October 15, 2021 - PRESSADVANTAGE -

AZ-based D.I. Auto Care is pleased to announce that they are offering professional auto window tinting services to the motoring public of Ahwatukee and the surrounding areas. Complete details can be found here: [Window Tinting Ahwatukee](#).

As noted on their website, D.I. Auto Care is a car detailing company that specializes in providing auto detailing for a variety of vehicles, ranging from cars to planes to boats. They are owned and led by Paul B. who has been in the car detailing industry for more than 30 years. The company offers their assistance to those who wish to have their car smell good, see its paint sparkle as if it were brand new and even have clean and new-looking leather seats for a higher resale value.

One of the main services that D.I. Auto Care offers is window tinting. Having tinted windows provides several benefits to car owners and passengers in addition to making their vehicles look better. Window tints can reduce heat and keep cars cooler, especially during hot days. This can help people save money as having

cooler car interiors means that they will not have to use as much air conditioning during the summer. Window tints also block up to 99% of UVA and UVB rays, which can lead to cancer. Another huge benefit to having window tints is improved privacy and safety, as they can keep people and valuables out of sight.

People can choose to apply window tints themselves using 100-foot rolls of film or pre-cut window tint kits. In fact, most people choose to do it by themselves as they think that applying a window tint is as simple as attaching a bumper sticker on their vehicle. However, window tinting is not as easy as it may seem. Film cannot just be applied to glass for it has to be shrunk correctly in order to make it fit the windows. Many modern vehicles even have curved glass, which makes this even more difficult. It takes years of training and practice in order to execute the process of shrinking film well. People may choose to buy pre-cut kits online, but they will still have to shrink the film. Due to these reasons, it is recommended to have window tinting be done by professionals, such as those at D.I. Auto Care. Professional tinting may be somewhat more costly, but the end result will definitely be amazing. Learn more here: [Window Tint Near Me](#).

D.I. Auto Care also offers a variety of other services, such as windshield repair and car detailing. They have received positive reviews on both Google and Yelp for the services they offer.

Becky S. says in a 5-Star Yelp review, "I can't even say enough great things about Paul and his exemplary work. We recently moved us and our home cross country to AZ, and by the end, my car was in dire shape, so I gave D.I. Auto Care a call as a first time customer in hopes it could get some serious TLC. From our very first phone call, he was friendly, informative, professional and listened to specific requests I had. He made me feel valued and came out promptly at our scheduled time and got straight to detailing. He not only did a phenomenal detailing of my car, but I can see he addressed every nook and cranny in the vehicle, leaving it ? no joke ? better than brand new.?"

The review adds that Paul, "Definitely went above and beyond what I was hoping! I couldn't believe the effort he put into my vehicle, and turned it into a total joy to drive in. He really put 200% into detailing the car, and I cannot thank Paul enough. I highly recommend his services to anyone looking for a top notch detailing service! It's worth every single penny and then some. I will definitely use his services again for any car detailing needs.?"

Meanwhile, another review says, "Bought a used car with stains. Light interior so I myself even added more. I honestly thought it was useless to even try a detailing, but Paul came out and made my car look brand new! So happy it's in pristine condition now. I don't dread getting inside. Should have done this a long time ago.?"

Those looking for professional car tinting services may check out D.I. Auto Care's website for more details.
