Lifetime Family Dentistry Is Offering Premium Dentist Services In Kaysville UT

January 12, 2021

January 12, 2021 -
Lifetime Family Dentistry, a dental clinic in Kaysville, UT, is offering its dentistry services to the clients in Kaysville and surrounding areas such as Layton, Fruit Heights, and Farmington. The clinic offers services such as family dental, veneers, teeth whitening, implants, orthodontist, emergency dentistry, and many more.

The clinic claims to offer the best staff and best office for a superior and premium dental experience. The clinic is located in a convenient location at 475 N 300 W, Suite 1, Kaysville, a stone?s throw away from I-15. The clinic says it specializes in pain-free dentistry. It accepts most insurance carriers and offers membership plans for those who do not have insurance. They schedule appointments for the entire family who would like to visit as a group and even have Friday and Saturday appointments available for those with busy schedules.

When a patient first visits the clinic, its well-trained staff completes cleanings efficiently and gently. These cleanings are usually completely covered by insurance or its in-house membership plan. Then the clinic?s Hygienists and Dentists evaluate the patient?s overall dental health and recommend any treatment that may be needed. The clinic promises to work together with the patient to come up with the best care plan for each one of them. The clinic says it will create a plan for its patients to attain optimal dental health if treatment is

needed. The clinic says they have many financing options available to suit almost every individual?s capacity.

Dr. Godfrey, the head of the clinic, grew up in a family of dentists in Idaho who mentored him from a young age. He had resolved to follow in his family?s footsteps. He graduated from Bountiful High in 1998 and went on a 2-year Spanish speaking mission to Argentina. When he started work as a hygienist in 2005, he realized the importance of preventative dentistry. Dr. Godfrey then continued his schooling and was accepted into dental school at Roseman University in 2012. Since then, he has been working as an associate dentist while preparing to own an office where he could establish himself as part of the community. Dr. Godfrey is passionate about dentistry and brings with him experience doing dental implants, root canal therapy, and oral surgery, along with traditional dental procedures. The clinic says that there are 4 main pillars that it bases its service on - great patient care, friendly office staff, best office, and affordable prices. Speaking on each of the pillars of service, the spokesperson for the company, Dr. Chris Godfrey, DMD, says, ?At Lifetime Family Dentistry in Kaysville Utah, we understand how intimidating a dental appointment might be. Our dentists make sure that you're comfortable and well taken care of before and after every procedure. We make sure to keep our office clean and hygienic. We have equipped Lifetime Family Dentistry with every tool necessary to perform the best procedures and achieve professional results. Kaysville dental staff has been trained to offer a friendly and comfortable environment for our patients. We understand that not everyone has dental insurance. We offer an in-house membership plan with low monthly payments which allow members to receive all preventative care and provides a discount for any diagnosed treatment.?

A review of the clinic from Uanona L. says, "We have been going since Dr. Godfrey took over for Dr. Howard and has been bringing technology into practice. He has kept the family-friendly feel of the dentist that I grew up with. I see Jenn and she always has such a happy and safe demeanor while she cleans and takes care of my teeth! I am never worried about having to go to the dentist! The office staff is super helpful and pricing is always upfront. I love how well they work with me and my insurance.?
