Dentist Office Near Me Provides General Dentistry Services

January 24, 2021

January 24, 2021 -
Kaysville, Utah-based Lifetime Family Dental is providing general dentistry services for the residents of Kaysville, Layton, Farmington, South Ogden, Centerville and the surrounding areas. More information about the dental office may be found here: https://www.pressadvantage.com/organization/lifetime-family-dental.

Dr. Chris Godfrey DMD, owner and manager of the expanding dental office, says, ?Dental hygiene is critically important, and it is vital that you do everything you can to ensure that your teeth and your mouth are kept healthy. As such, my team and I at Lifetime Family Dental are dedicated to providing all the services that you need to ensure that you have a clean mouth and a lovely smile.?

Lifetime Family Dental offers a range of general dentistry services including but not limited to dental bridges, dental crowns, dental fillings, dental hygiene, dental implants, endodontics, pediatric dentistry and a range of family dental services. The dental office strives to be the go-to location for local residents whether they are dealing with a simple toothache or a more complex issue like teeth decay or a dental abscess.

Dr. Godfrey was born in a small town in Idaho and had dreams of being a dentist from his childhood, dreams

that were nurtured by his grandfather and two uncles, all of whom are dentists. He started working in the dental field as a hygienist in 2005 where he learned the importance of preventative dentistry. He continued his schooling and went on to be accepted into dental school at Roseman University in 2012. He then worked as an associate dentist while preparing to own an office where he could establish himself as part of the community. Today, Dr Godfrey is passionate about dentistry, and brings with him several years of experience doing dental implants, root canal therapy and oral surgery, along with traditional dental procedures, to the residents of Kaysville and beyond.

The high-quality dental services offered by Lifetime Family Dental has allowed Dr. Godfrey DMD and his team to earn a sterling reputation among their patients. On the Google platform, the dental office has a near-perfect rating of 4.9 out of 5 Stars. In a recent review, Deanna Kinsey writes, ?I have loved going to Dr. Chris Godfrey. He takes the time with me and my kids in helping us understand what is going on with our teeth, how to best take care of them and makes us feel at ease (which is an accomplishment with my 6 year old!). We have absolutely loved going here.?

Meanwhile in another 5-Star review, Uanona Lauto?o says, ?We have been going since Dr. Godfrey took over for Dr. Howard, and he has been bringing technology into the practice. He has kept the family friendly feel of the dentist that I grew up with. I see Jenn, and she always has such a happy and safe demeanor while she cleans and takes care of my teeth! I am never worried about having to go to the dentist! The office staff is super helpful and pricing is always up front. I love how well they work with me and my insurance.? Patients who are interested in leaving a review can do so at the following link: https://search.google.com/local/writereview?placeid=ChIJDaSqIzkBU4cREWhO5bg4dog.

Dr. Godfrey says, ?From the day I opened Lifetime Family Dental, I?ve envisioned it as a place where the best patients, the best staff and the best office come together to provide an unmatched dental experience, one that you won?t find anywhere else. We work hard to move towards that goal every day, trying to create an office where patients know that they can always rely on us and are proud to recommend us to friends and family.?

Those who want to learn more about Lifetime Family Dental and their services are welcome to visit the dentist's website to get started. They encourage interested parties to get in touch with Dr. Chris Godfrey DMD directly via email or phone. The dentist can also be reached through the contact form on their website. Lifetime Family Dental maintains a presence on Facebook where they frequently post updates, share media and communicate with their patients.
