Lifetime Family Dental Answers Need For Dentist Office Near Me

January 29, 2021

January 29, 2021 -

Lifetime Family Dental, a Kaysville, UT-based dental office, has set out to meet the very common need for a nearby dentist in and around Kaysville. The dental office offers a wide range of procedures in both general dentistry and cosmetic dentistry. Residents of Kaysville have come to trust their services, and one can always be sure to receive the very best dental care at Lifetime Family Dental. The dental office can be reached through Facebook at https://www.facebook.com/Lifetime-Family-Dental-104879261038951/.

?Here at our Kaysville dental office, the focus is a healthy smile and good oral health at an affordable price,? a representative of Lifetime Family Dental says. ?A simple smile boosts your confidence, helps you to relax, improves your immune system and brings a smile to those around you! We want to help you achieve that. There is nothing that makes us happier than watching patients of Lifetime Family Dentistry smile confidently again. Contact our Kaysville dental office, book an appointment, and we promise to make your smile beautiful!?

The practice is built on four pillars which guide and inform every action they take. These four pillars include great patient care, friendly office staff, best office and affordable prices. These principles have helped shape

Lifetime Family Dental into one of the top dental offices in the area. They are unique because their staff members are aware of just how intimidating a visit to the dentist can be ? and they strive to ensure that every patient is completely at ease before, during and after every procedure.

Hygiene is very important to the Lifetime Family Dentistry team, especially with what is currently happening in the world with the pandemic. The dental office is equipped with every tool necessary to perform each procedure and achieve excellent results. Their staff is made up of well trained, friendly professionals who offer a comfortable environment to each and every patient. All of this is offered at an affordable price, with an in-house membership plan that allows patients to make monthly payments while receiving all the preventative care they need along with discounts on diagnosed treatment.

The dental team is headed by Chris Godfrey DMD, an Idaho native who grew up planning on being a dentist. He was mentored by his grandfather and two uncles (who are also dentists) and began working as a dental hygienist in 2005. During his time as a hygienist, Dr. Godfrey learned the importance of preventative dentistry, and this knowledge has helped him provide better care for his patients over the years.

?My front tooth broke! I went to my regular dentist, and he placed crowns on both of my front teeth,? says one of Dr. Godfrey?s patients. ?I actually was unhappy with the fit and feel of the crowns. When I went back to the dental office two weeks later, I found that my regular dentist had retired! Dr. Godfrey was the new dentist in the office. He listened to my story, looked at my crowns and came up with a great plan to get them fixed correctly! Dr. Godfrey was kind, efficient and proficient in getting my teeth right. He fixed a problem he didn't create and has gained a patient for life! I would highly recommend Dr. Godfrey and his office!?

A Google review of the office says, ?We have been going since Dr. Godfrey took over for Dr. Howard, and he has been bringing technology into the practice. He has kept the family friendly feel of the dentist that I grew up with. I see Jenn, and she always has such a happy and safe demeanor while she cleans and takes care of my teeth! I am never worried about having to go to the dentist! The office staff is super helpful, and pricing is always up front. I love how well they work with me and my insurance.?
