Dennis Demirjian From Citrus Endodontics Voted Top Dentist In Tampa Bay Magazine

September 18, 2015

September 18, 2015 - PRESSADVANTAGE -

Citrus Endodontics in Tampa has announced that its very own Dr. Dennis Demirjian has been voted as one of the top dentists in the area. This was listed in the Tampa Bay Magazine. The award has been gracefully accepted and patients have celebrated together with the clinic.

"I am so happy to have been named one of Tampa's best dentists," says Dr. Dennis Demirjian. "However, I couldn't do the work that I do without the assistance of my fantastic team and the support of each and every one of our patients. So this award goes out to them as much as what it does to me. Thank you!"

All dentists at the clinic are members of the American Association of Endodontics. Their goal is to provide a high quality, but personalized service to Tampa residents. For Dr. Demirjian, for instance, the goal is to build a friendly, personal relationship with each of his patients. It is also for this reason that the clinic is very active on Facebook, where existing and prospective patients can share their experiences, as well as being kept up to date with further developments in the field of endodontics.

The Facebook page is being actively used by patients who have been discussing their experiences with the

team. "If anyone needs a root canal, this is the place to go," says Chick Wingo. "My husband and I both needed a root canal. We have heard some bad stories of peoples experiences. Needless to say we weren't looking forward to this procedure. Dr Demirjian has change our feelings 100 %. You will not be disappointed. Our experience was nothing short of excellent. He and his staff were friendly, and made us feel calm and relaxed. Before you knew he was finished. I would highly recommend Dr Demirjian and his staff for your first or next root canal."

The clinic focuses strongly on offering treatment in an environment that is friendly and caring. They understand that root canal therapy is not something anyone would ever look forward to, so they will do all they can to set their patients' mind at ease. This is something that was particularly mentioned in the Tampa Bay Magazine.
