Grace Roofing And Construction Offers Roof Repair in Winston Salem

January 14, 2021

January 14, 2021 -
Grace Roofing And Construction LLC, a Winston Salem roofing company, is pleased to announce that they are offering roof repair services in Winston Salem, North Carolina, and the greater NC Piedmont Triad. They provide roof repair for all kinds of roofs for both residential and commercial applications. They also offer tarps to prevent entry of water into the home or building, temporary repairs, and permanent repairs that are backed by their no-leak warranty.

They also want to suggest that homeowners have their roofs inspected regularly and to be proactive regarding their roof maintenance in order to lengthen the roof?s life and enjoy savings in the long run. They are also excited to announce that they are offering their 30-point roof inspection for $125 with a $100 credit towards roof repairs. This offer will be available from January 1 to March 31, 2021.

Richard Sakowski, owner of Grace Roofing And Construction LLC, says, ?Whether it be storm damage or just years of wear and tear when you need a repair for your roof, Grace Roofing and Construction will be at your home fast. We will fix things right the first time. We are a small, family-owned company but Winston Salem homeowners choose us because we work hard to deliver a professional, attentive service, and workmanship that is second to none. Our experienced roof repair experts will find the problem and provide the appropriate repair at all times.?

The company has developed a good reputation for more than a decade such that the Winston Salem roof repair services that they provide are now considered by residents to be reliable. They can provide the appropriate fix for any kind of roofing problem, such as leaky roofs; rotting wood; loose and damaged shingles; fascia wind damage; damaged venting materials; leaky chimneys, vent pipes, and flashing; and a collapsed roof.

A leaky roof is the most common type of roofing problem that needs to be addressed. It could be that roof is

leaking due to old age or it has been damaged by strong winds but it must be fixed as early as possible to prevent further damage to the roof and to the home. Leaking vent pipes, flashing, and chimneys also need to be repaired before the problem worsens and becomes a more expensive and more troublesome problem.

Meanwhile, if homeowners find rotting wood in their roof, this implies that there is an urgent need for roof repair. Wood is often used to provide support and rotting wood has lost much of its strength and may break at any time, putting the home and the family in danger.

If there are loose and damaged shingles on the roof, this has to be addressed as soon as possible because the wood underlayment can get damaged. The roofing specialists from Grace Roofing can easily replace those loose or damaged shingles.

Another part of the roof that can be damaged by strong winds is the fascia, which is made from solid wood boards and has the purpose of protecting the lower edges of the roof. With the powerful winds of a storm, the fascia can get damaged or even detached from the roof. The roofing specialists from Grace Roofing will take a look at the damaged areas and then repair and replace to bring back the fascia to its original form and appearance.

Roof venting may also get damaged because of incorrect installation, water intrusion, or strong winds during a storm. Damaged roof ventilation will cause the home to be too hot or too cold and has to be repaired as early as possible.

And finally, if homeowners notice that their roof has collapsed or is collapsing, they should not hesitate to call on Grace Roofing because this implies that there is possible structural damage and possible danger for the home and family members.

When requiring the services of a roofing company Winston Salem residents may want to visit the Grace Roofing And Construction LLC website, or contact them on the phone or through email. They can contacted at any time of the day, on any day of the week.
