24 Hour Locksmith Pros Virginia Beach Now Offers Automotive Services

September 15, 2015

September 15, 2015 - PRESSADVANTAGE -

24 Hour Locksmith Pros Virginia Beach, Virginia, has announced that they have expanded their locksmith services. While they have long offered both commercial and residential locksmith services, they have now included automotive services to their portfolio as well. These services are extensive and cover anything that has anything to do with locks within a vehicle.

"People often forget that cars have more locks than just the driver's side and the ignition," says Matthew Lee from 24 Hour Locksmith Pros Virginia Beach. "While our services cover those, we also help with the opening of trunks, replacing lost keys, unjamming the glove box, and much more. Any lock that presents a problem can be fixed by us, and we will be there within moments of someone giving us a call."

The locksmith in Chesapeake VA has built itself a reputation as one of the best. They can take on any job, big or small, and they pride themselves on their swift service. Customers can reach them 24 hours a day, 7 days a week, for any problem, and someone will be sent out immediately. Nobody should be locked out of their home, business or car, regardless of the time of day, according to the company.

The company also prides itself on its fair and professional service. All their locksmiths are fully qualified to do the necessary work. They also carry full identification, so somebody can always check that they are genuine. Additionally, before work commences, a full quotation will be provided, so that people don't find themselves faced with nasty and expensive surprises.

The locksmith Hampton VA services provider has been very positively reviewed by many customers. "I couldn't believe it when I came home from a business journey in the middle of the night and I found that I had lost my keys somewhere between Dubai and here," says one happy customer. "Luckily, I had the 24 Hour Locksmith Pros number. Someone was there within the hour, even though it was late at night, and the issue was resolved very quickly and for an affordable price. Thank you Matthew Lee for your amazing work."
