

For This Brandon, FL Resident, the Decision to Seek Help at WhiteSands Alcohol and Drug Rehab Was Life-Saving

January 15, 2021

January 15, 2021 - PRESSADVANTAGE -

Brandon, Florida. Like many who enter an addiction treatment center, John had reached a point where he felt utterly hopeless about his options and knew he needed help.

The Brandon, FL resident said, "I had no hope in sight and nowhere to go for help, but I had the great privilege to discover this facility."

For John, the care and support he received at WhiteSands addiction treatment center in Tampa proved to be exactly what he needed.

"They welcomed me with open arms, and I have never experienced better care between the state-of-the-art gym, swimming pool, and one-of-a-kind staff. I left here with a clear mind and new hope I thought I'd never have," John said.

WhiteSands has built a formidable reputation since opening its doors in 2013. The alcohol and drug rehab

was recently named the number one addiction treatment center in Florida by Newsweek magazine. Newsweek's annual rankings were informed by a survey of healthcare professionals around the state who were asked to evaluate alcohol and drug addiction treatment centers on quality of service, reputation, accreditation, follow-up care, and accommodations and amenities.

Joe Ducey, WhiteSands Chief Operating Officer, said, "WhiteSands was built with the goal to elevate the standards of care in addiction treatment, to ensure that we are giving patients the best chance at sustaining long-term sobriety and doing so in a safe and comfortable environment."

The Tampa drug & alcohol treatment center is unique in that it provides each client with their own private room with a queen-sized bed and private bathroom. Their staff of over 290 board-certified clinicians and support staff consistently receive excellent reviews from former patients online. And the impressive array of state of the art amenities provides innovative ways for patients to work through emotional challenges.

For clients like John, the comprehensive continuum of care provided at top addiction treatment centers like WhiteSands is vital to their long-term success in recovery.

"I had originally called in hopes of a simple detox. However, when I arrived I was given amazing information on their plans to help get me back on my feet instead of just a detox," John said.

WhiteSands crafts custom treatment programs designed specifically for the unique needs of each individual. These treatment plans cover the full continuum of care in order to provide the support and services patients need throughout all stages of recovery. WhiteSands addiction treatment includes a medically managed detox program, inpatient residential treatment, partial hospitalization programs (PHP), intensive outpatient programs (IOP), aftercare and relapse prevention, and alumni support.

In a closing remark, John stated, "If you know anyone that struggles with substance abuse, do them a favor and recommend them to this facility. It will change their lives."
