Okeechobee, FL-based Ultimate Flags Inc. is pleased to bring their industry-leading flags to communities all across the US. Ultimate Flags is both American-owned and family-operated, and this is evident in the high standards they set for themselves and their products. While the company sells flags for a multitude of purposes, from international holidays to pirate flags and so on, they mandate that every product they sell to customers must meet high expectations. Reviews from customers frequently mention the high quality of these flags as well, even going so far as to state that they were unexpectedly well-made.

According to the company, this is intentional. Jonica Hough of Ultimate Flags Inc states, "Being American-made and family-operated, our customers expect a certain standard of quality from us. While we strive to meet this expectation in every order we fulfill, we also take pride in exceeding expectations wherever possible. Many flag manufacturers appear to believe that less famous flags or important do not necessarily have to be made to last. We disagree. If you order a flag from us, no matter what it is meant to represent, you can expect it to be as durable as any other." This is due to the fact that each customer's beliefs are important to the company. Whether meant to represent a country, religion or hobby, a flag is intended to proudly declare the owner's affiliation to a particular group. As an example, Ultimate Flags sells military flags and smiley face flags, and both may be expected to stand the test of time (as well as weather the elements) with grace.

One of Ultimate Flags' core tenets is consistency: they seek to consistently deliver a great product no matter what type of flag a customer may order and pair it with superb customer service at the same time. This approach may have contributed to many (if not all) of the company's glowing reviews, which almost universally report that Ultimate Flags can be expected to provide American-made flags that are both of excellent quality and delivered in a timely fashion.

Peter G.'s Google review, for instance, awards the company a 5-Star rating for the assistance they provided as well as the items themselves. The review says, "John was fantastic at communication through email. He let me know one item I had ordered will not be in my first package with the other item. It did come the same day but in a separate package. All in all, the flag and the license plate I ordered were of great quality and price and well-made in the USA. I will be buying from them again, very pleased with the purchase."

A much more recent review from Erin T. echoes this sentiment, demonstrating that the company has remained unwavering in their dedication to manufacturing flags to only the highest standards. The review says, "5 Stars. Way above and beyond with product and customer satisfaction. Fast response to emails, great customer service and stellar product. Definitely will be giving future business! Highly recommend these guys to anyone looking for quality flags. 100% satisfied with the extremely large selection of flags as well. A++, keep up the phenomenal work!"
