Palmtree Cash Homebuyers, a family-owned real estate solutions firm in Fort Lauderdale, FL, is pleased to announce that they are offering cash to those who want to sell house fast. Furthermore, they also ensure that they will be offering a fair price. There are many possible reasons why a homeowner would want to sell his or her home as quickly as possible, such as those who are avoiding foreclosure, who have a vacant house, who are relocating, who have inherited an undesirable home, who have been downsized, who are late on payments, who have a fire damaged house, who have a bad tenant they can't evict, who have liens, and more. Whatever the reason, selling the home for cash can speed up the process significantly because there would be no need to wait for a home financing approval from bank or financial institution that would take weeks or months.

Fitz Thompson, a representative for Palmtree Cash Homebuyers, says, "Working with an inexperienced real estate agent could end up costing you dearly in both time lost and expenses that can't be recovered when you sell your house. We can offer to buy your house fast for a fair price in as is condition. You won't have to fix, clean, repair, or paint anything. You may realize the best profit, when you're considering selling your house for cash to a real estate investor in Broward and Palm Beach County Florida like us Palmtree Cash Home Buyers. We buy houses fast for cash and you can be sure that the price we offer is fair.?"

The problem with going through the conventional route of selling the house with the help of a real estate agent is that it would take a long time find a potential buyer. And even if one is found, there is no assurance that the deal will push through. The potential buyer may fail to get bank approval or may change his or her mind at the last minute. When that happens, the home seller will be back to square one.

In addition, when going through the traditional way of selling a house, the home seller will need to make the house presentable to attract buyers. This means the house must be cleaned and repaired, whereas a cash homebuyer like Palmtree Cash Homebuyers would be willing to buy the property in as-is condition. Even with

a home needing repairs, they are experienced and knowledgeable as to the actual value of a home and will offer a fair price.

Palmtree Cash Homebuyers buys homes for cash in the Broward and Palm Beach Counties in South Florida. They are ready to make a cash offer within 24 hours after the home seller has completed the online form on their website to provide relevant information regarding the property. It is also possible for them to offer a rent to own the home arrangement. After the home is finally sold, the home seller will be receiving the full price offered. Furthermore, the monthly payments made by the tenant will be higher than the home financing payments that need to be made during the term of the lease.

There are four basic steps in the process of Palmtree Cash Homebuyers buying a house for cash. In the first step, the home seller informs them about the property to be sold by filling out an online form that is available on their website. Next, the company will go through the details that have been provided to make sure that the property fits the kind of home that they can invest in. If the house fulfills the criteria, they will schedule an appointment with the home seller. In the third step, the company will present the homeowner with a fair written, no-obligation offer. And in the final step, the company and the seller will close at a trusted title company, with the quoted amount given in cash to the home seller. All of these can be done in just seven days.

Homeowners who are looking to sell their home fast and are searching for cash home buyer companies may want to visit the Palmtree Cash Homebuyers website, or contact them on the phone or through email. They can be contacted from 10:00 am to 5:00 pm, from Monday to Friday.
