

Rooter Hero Plumbing Announces Fast and Precise Commercial Plumbing in South Bay

November 04, 2015

November 04, 2015 - PRESSADVANTAGE -

Rooter Hero Plumbing of South Bay is pleased to announce the addition of commercial plumbing services to their already stellar line-up of plumbing repair and installation offerings. For nearly a century, Rooter Hero Plumbing has been a household name for residential property owners. Now, commercial customers can take advantage of the company's impressive portfolio of services.

Jessica Perrault from Rooter Hero Plumbing says: "We have already built up a reputation for being one of the most trusted plumbing companies for residential properties. We have achieved this through our unique way of working. Because we vet each of the plumbers in our network very carefully, it has taken slightly longer to have a team ready for commercial services as well. We are confident that we have a strong network of independent contractors that truly care about the quality of their workmanship. We're sure our commercial customers will be pleased with our services as much as our residential customers have been."

The unique way of working referred to by Jessica Perrault is in regards to the fact that Rooter Hero Plumbing does not directly employ plumbers. Rather, they have built up a network of plumbers from across the South Bay area. Doing this ensures that they always have professionals ready to take on any job. Only those who

meet a number of stringent criteria are allowed to become part of the network.

As a full-service commercial plumbing company in South Bay, Rooter Hero Plumbing offers the following services: plumbing repair, plumbing services, plumbing replacement, water pipe repair, Scour Jet services, gas pipes and re-piping, water heater installation, drain and sewer repair, and drain cleaning. The company offers both regular servicing and emergency repairs and, in most circumstances, they guarantee 90 minute response times.

"The thing that makes our network so unique is that it means our customers never have to wait long for a plumber to be on site," explains Jessica Perrault. As can be seen on the company's website, <https://rooterhero.com/south-bay/>, working in this way is also an opportunity to support the local economy. This way, everybody who hires a Rooter Hero plumber is putting money back into the local community. Rooter Hero Plumbing of South Bay can be reached online or by calling 562-287-5074.
