HLDVT.com, an online marketing and online business agency that reviews the latest business products and software, announced today that it has reviewed the new Publish Academy Course, taught by Anik Singal. The course reveals Singal's secrets that have fueled his online business success and how he managed to earn more than \$1million in revenue. HLDVT.com's review includes a bonus video.

"If you are a publisher, author or reader, then you understand just how much eBook technology has taken the publishing world by storm," said Jake Anthony of HLDVT.com. "The truth is that digital books or ebooks have affected individuals' entire approach to buying and reading books. That is what this course is all about. It helps you become successful in this totally new publishing landscape."

Publish Academy by Anik Singal covers business transformation services such as changing to ePub or Kindle to fulfill client requests. It talks about modifying printed materials into new formats. The course provides extensive resources, live webinars, support and chat. In addition, students receive access to specialized software, digital resources and recommended service providers for outsourcing the eBook creation process.

Earlier, Mr. Singal created Profit Academy, a popular training course. Publish Academy updates the curriculum from Profit Academy. One former student described the course, saying, "This is an all in one suite that is good for anyone, whether you are just starting out or a well established entrepreneur. I am an affiliate making over \$10,000 a month. I used Singal's strategies to scale to over 15k per month in the first 40 days or so!" Some Profit Academy students are now earning \$1000/per day using the methods outlined in the training.
