Dumpster Rental Services in Austin TX Are A Critical Waste Disposal Option, Explains CTX Dumpsters

January 28, 2021

Round Rock, Texas - January 28, 2021 -
Local Austin waste removal company highlights the importance of renting dumpster rentals as a viable and critical option in the disposal of different types of waste.

According to a report published by the United States Environmental Agency (EPA); the average American citizen generates an average 4.40 pounds of waste every single day, which translates to a humongous 1600 lbs. annually. For a small family, this may not look so bad, but this amount of trash quickly escalates to an amount that cannot be easily managed by local city waste disposal agencies, when this figure is multiplied by the number of families living in the state.

Companies also generate a lot of waste every day as a by-product of their daily production activities; and such waste can only be safely and effectively disposed of by renting a waste removal dumpster.

?Large-scale industrial cleanouts, office location renovations, building and construction waste, foreclosure and eviction cleanouts, large-home cleanouts, demolition waste, yard maintenance waste and waste produced by businesses and large companies are usually too much for local disposal authorities. The only

way to effectively manage and dispose of such large amounts of waste is to rent a waste removal dumpster,? stated Jeremy, CTX Dumpsters? founder and CEO.

According to the information given on their website, CTX Dumpsters is a locally owned, locally run company that was built from the ground up. They promise to provide their customers with superior dumpster rental services, on-time delivery and they seem to value their employees as an integral part of the success of the company.

?The team at CTX Dumpsters is proud to say that we are a self-made company that's locally owned and operated. You can count on us to provide you with a superior dumpster rental service, on-time, and ready to get to work managing your waste for you,? says Mr. Jeremy Thrailkill. He also gave glowing tribute to the company?s representatives saying, ?CTX Dumpsters knows firsthand that you're only as strong as your weakest link when it comes to building both a team and a business, which is why we have the best, most knowledgeable and experienced team in Central Texas.?

According to CTX Dumpsters website, the company offers affordable dumpster rentals to homeowners, contractors and communities in Austin, TX and also services other cities in Central Texas. Some of the cities listed in their service area are: Leander, Cedar Park, Austin, Georgetown, Taylor, Hutto and Pflugerville and their surrounding areas. They have containers in three dumpster sizes, namely; 10 yard dumpsters, 13 yard dumpsters and 15 yard dumpsters.

In a bid to find out whether the company actually provides reliable dumpster rental services and superior customer service as they claim on their website; an individual can check for company reviews and ratings online. The company is listed in the Better Business Bureau (BBB) with a solid A+ standing. CTX Dumpsters has many positive reviews on Yelp, Google and Facebook platforms. Below is what one reviewer had to say about the company:

?I booked a dumpster rental from them online around 9 pm and requested my delivery the next day and they called me the very next morning first thing and it was here by noon the same day. The dumpster looked exactly like it did in the pictures. Super easy to deal with and I like easy.? Ricky V.

The dumpster rental company has concentrated its services towards construction companies needing construction waste removal dumpsters and homeowners needing residential roll off dumpster rentals. However, they also mention that they provide dumpster rentals for businesses who need temporary waste removal containers for various projects.
