

Naples Man Initially Skeptical of Addiction Treatment Praises WhiteSands for Helping Him Overcome His Addiction

January 29, 2021

Naples, Florida - January 29, 2021 -

Naples, FL - Like many who enter an alcohol and drug rehab center, Matthew was apprehensive at first. He knew he needed help, but he doubted whether anyone would truly understand what he was going through. He had never been to treatment before and he was nervous.

Fortunately, Matthew persevered and did get the help he needed. He entered WhiteSands Addiction Treatment Center in Plant City, Florida where he completed a 30-day residential inpatient program. He then continued on with outpatient treatment near his home in Naples, FL.

"This was my first experience in a treatment center, and I did not know what to expect," Matthew said. "The therapists at both the inpatient and outpatient gave me a lot of insight about the disease of addiction." Read his review on WhiteSand's Alcohol & Drug rehab program.

During their time at WhiteSands, patients like Matthew come to understand that they are dealing with a disease. Therapists and board-certified addiction specialists work to educate patients on the science behind addiction so they can better understand what lead them down this path and what they can do to manage it now. When patients understand that addiction is not the result of a moral failing on their part they are much more successful in treatment.

“Before coming here, I knew nothing about addiction other than I had a problem. I was so grateful for the opportunity to come to WhiteSands and get help,” said Matthew.

WhiteSands is a leading provider of both inpatient and outpatient addiction treatment and behavioral health services. The alcohol and drug rehab operates three inpatient facilities and 19 outpatient treatment centers across Florida making them one of the largest treatment centers in the country. Founded in 2014 with the goal of elevating the standards of care in addiction treatment, WhiteSands has successfully helped over 10,000 people achieve long-lasting sobriety since they opened their doors. Their success was recognized in 2020 when Newsweek magazine named WhiteSands Plant City and Fort Myers facilities the number one and number four addiction treatment centers in the state of Florida based on reputation, service, and accreditation.

What’s more, patients like Matthew consistently praise WhiteSands for providing the dedication, support, and encouragement they need to turn their lives around. WhiteSands’ formula for success is based on a multifaceted approach that always puts patients’ comfort, safety, and well-being above all else. Their team of over 290 clinicians, medical doctors, and support staff focus on providing individualized treatment that heals the root causes of substance abuse and mental health disorders in a comfortable environment with state of the art facilities.
