

Who Does Your Teeth? Celebrates Patients With Monthly Award

September 15, 2015

September 15, 2015 - PRESSADVANTAGE -

HENRICO, Va. -- Dr. Jeffrey Neal wants to reward his patients for taking great care of their teeth.

Dr. Jeffrey Neal has amazing patients at Who Does Your Teeth?, and he believes that they should be rewarded for how amazing they are. That's why Dr. Neal and his staff choose a Patient of the Month every month!

The patients aren't just rewarded for excellent care of their oral health, although that is a part of the criteria. The Patient of the Month is chosen based on a few things: generosity of spirit, community service participation, and, of course, exceptional dental compliance. It is a way for Dr. Neal to honor deserving patients and thank them for giving back to the community.

Dr. Neal has found a way to praise his pediatric patients for good oral health habits as well.

Children are encouraged to take care of their teeth because of Dr. Neal's Cavity Free Club. When a child's hygiene checkup shows they are cavity free, they are automatically a member of the club. They are then

placed into a monthly drawing for the chance to win a great prize of their choice.

Of course, Dr. Neal and his staff not only have contests to encourage patients to be great citizens and take care of their teeth, but they also provide excellent dental care. They provide cleanings and exams, braces, dental crowns, veneers and cosmetic dentistry procedures. They help patients who suffer with teeth grinding, headaches, sleep apnea, snoring and TMJ (temporomandibular joint disorders, which result from problems with the jaw joint and can be very painful).

"I have great patients, and they do a great job taking care of their teeth. I think they should be rewarded with more than excellent oral health. I enjoy giving patients of the month a little something extra from us," Said Dr. Neal.

Along with the Patient of the Month award and the Cavity Free Club, Dr. Neal and his team give patients many reasons to enjoy visiting the dentist. They are friendly and caring for every patient. They have ways of making you happy and comfortable.
