A review of the store on Yelp says, ?I have been in the market for new floors for my home for a while. My friends used Zothex to install floors in their home and after their stellar review, I decided to schedule an estimate with Zothex. Zothex installed Luxury vinyl flooring downstairs and new carpet on the stairs and upstairs. The project manager, Kris was helpful in his flooring recommendations during the product selection and was responsive to any questions and/or concerns that I had throughout the process. I was originally told the project would take 5 days to complete however, the installers completed the project in 2 full days! On day 1, the installers arrived promptly at the scheduled time and were wearing masks (covid-19 times). I am very pleased with my new upgraded floors and happy that I was able to support a Black-owned business!?
