

Cambridge Electronics Incorporated Launches The Sweetheart Lg Velvet Deal

February 10, 2021

February 10, 2021 - PRESSADVANTAGE -

Telus/ Cambridge Electronics Incorporated, based in Alberta, Canada, is pleased to announce the launch of the Sweetheart LG Velvet Deal, in time for Valentine's day. The deal, which will run for a limited time, offers a new low price and a low monthly price for a limited period.

The LG Velvet, the phone on offer, boasts a sleek and colorful design. Buyers may choose from one of the eye-catching finishes (which shine to create a velvet illusion). The slimline ergonomic design features a water droplet-inspired linear triple camera with two under-glass lenses. The phone also features a large 6.8" edge-to-edge, POLED FullVision screen for an immersive cinematic experience. This screen is designed to deliver the full picture of shows and movies, as the filmmaker intended, allowing users to see all of the riveting action without cropping or distortion. It acts like a portable cinema as it maintains the quality of the video. The phone is also 5G-capable for unrivalled performance. One may enjoy increased speeds, reliability and capacity with the LG Velvet 5G on the TELUS 5G network across Canada.

The phone features a camera capable of taking highly detailed pictures. One may capture photos in astonishing complexity with the 48MP rear camera. To quote the Telus website, "Every memory comes to life in high-res clarity and color. Photos stay sharp, even when you zoom in. Brilliant photography - right on your smartphone." The sound system of the phone allows an individual to immerse themselves in captivating audio. With the LG 3D Sound Engine, AI is capable of analyzing what the user is listening to, where it then adjusts the sound to the ideal setting. As a result, voices are clear, music is rich and movies are immersive and three dimensional. The two speakers also boast an even audio distribution which envelopes the user in sound. The limited time Valentine's offer would enable a buyer to own the LG Velvet at a lower cost, whether it is for personal use or a gift for a loved one.

One of the factors which make this phone a particularly useful device are its accessibility features. For those with vision impairments, the phone features a large screen size, adjustable font size and display settings, screen magnification and so on. The phone also has the option to invert the colors to suit the individual's requirements. If an individual has mobility issues, the LG Velvet offers stylus pen support, external keyboard

and mouse support, quick response messages, voice assistant and Bluetooth headset compatibility, to name a few. Features such as mono-audio, text-to-speech, tele-typewriter support and hearing aid compatibility are in place for those who may have hearing impairments.

One factor which makes the LG Velvet a truly accessible phone is that it includes features designed for those who may have cognitive issues. The phone offers speech-to-text, video calling and messaging and word prediction for one's communication needs. The phone also offers the user a choice of call alerts, tactile or audible feedback ? and also a photo-enabled contact list. The wide range of accessibility features make this an ideal phone for almost every individual.

Cambridge Electronics Incorporated consists of a team of about a dozen Telus Specialists, who are, ?professional problem solvers, tinkerers and all around geeks, working around the clock to make Cambridge Electronics Incorporated the best Telus Service Provider in the universe,? as stated on their website. Whether one is the owner of a business or an individual who owns Telus Products for personal use, one would need a Telus Service Provider who takes care of the complicated matters so one may enjoy the Telus products with the least hassle. Cambridge Electronics Incorporated makes it easy to select the proper wireless device and match it up with the accessories one may need as well. Even the Valentine's offer is in order to provide an opportunity for customers to purchase an LG Velvet at their convenience. The store's dedication to customer satisfaction is evident in the many positive reviews that they have received. Lan Eng says in a 5-Star Google review, for instance, ?Very happy with this location. Setup my devices efficiently and saved me money. I won't go anywhere else!?

To learn more about the Sweetheart LG Velvet Deal or Telus/Cambridge Electronics Incorporated, one may visit the official website. One may also contact the team directly via phone or email. Similarly, Dan LHeureux of Telus/Cambridge Electronics Incorporated may be reached for further details.
