

## **Clutch with Diaper Mat Has Strap For Baby Strollers Announces 3 Bees and Me**

*September 18, 2015*

September 18, 2015 - PRESSADVANTAGE -

Earlier today, 3 Bees and Me happily announced that their clutch with diaper mat has a convenient wrist strap that can also be easily hooked to a baby stroller. This feature is particularly helpful for parents who love strolling with their babies. Moreover, the strap makes it easy to be carried anywhere especially during strolls.

"We are very proud to share with everyone that our number one baby changing kit in black and white Chevron pattern has a convenient wrist strap that can easily be attached to baby strollers," says Holly James, 3 Bees and Me representative. She further added, "We know for a fact that parents love to stroll with their babies to bond with them. With this in mind, we thought of a way to make the clutch easy to bring and carry. You can carry them by hand or attach them to the stroller of your baby."

This clutch has slowly become a popular gift for new parents mainly because of the reviews that it got from the users. In one review by Sandy Brandon, she wrote, "The pad itself is extremely cute and fashionable. It folds out large enough that it easily fits the baby and yet it is small enough when you fold it back up that you can carry around with you for quick trips to the store, mall, etc. It has a little area that you can hold it as a wristlet, attach it to the stroller for longer trips, and yet still small enough that you can throw it in the diaper

bag, without adding a lot of weight to your bag. I love this Changing Pad!! Great for any new mom or even as a gift for a Baby Shower!?

This baby diaper changing station has a mesh pouch that is secured by Velcro. It can house different baby essentials such as diapers and wipes. For the more important items such as keys and money, it has a zippered front pocket that parents will appreciate. For the pad, it is large enough for a growing baby. It is made of vinyl material that is very easy to clean and sanitize. Lastly, the clutch and mat have a classic black and white Chevron pattern that is perfect for moms and even dads.

One feature that makes this diaper station clutch stand out, according to users, is its wrist strap. It makes it a clutch that is convenient to use and carry to just about anywhere. It is still available online at <http://www.amazon.com/Bees-Changing-Pad-Diaper-Clutch/dp/B00OOAM70S>.
