The company wants potential car sellers in the Orlando area to know that even during the Pandemic, it is still taking steps to assist customers wanting to sell their junk cars.

Lazaro Diaz, a spokesperson for the company, said, "We are local, so anyone wishing to sell a junker does not have to deal with long waits to get a quote. Once we have the information needed, we can give a quote and usually we will be out within one business day to get it. Because we move so quickly customers aren't hanging on forever to get their money."

In addition to being able to move quickly to make a purchase, the company also stresses that it will cover all the costs of towing. All Car Buys can also be flexible in terms of when they come to pick up the vehicle. Nighttime or weekend pickups if necessary, can be arranged in many cases.

Prospective customers can get a quote on a "junk car" by filling in the company's online website form or

simply by calling them at 321-732-4343 and All Car Buys will be able to tell what a junk car would sell for on the spot.

Catherine Kiner, a customer of the company, said, "I was ready just to have my old car towed away but a friend suggested them. I contacted All Car Buys, and I could not have been more pleased with my experience of working with them. I called them about the car to be junked - it was one my neighbor gave me - and they were there later that very day with cash and towed it away."

All Car Buys covers many different cities, not just the Orlando area. From Orange County, Seminole County, Osceola County, Lake County, Polk County, and more. The company can help customers take care of a junk car problem.

Mr. Diaz went on to say, "Many home and business owners aren't sure what to do when they get a notification from their city of a code violation because of a junk car. The thing to do is to call us, as we will not only take care of getting rid of the problem car, we will also pay to be allowed to do so. We've been told by many customers that having the extra money that selling cars that can no longer be driven and are simply not been worth fixing has been very helpful."
