

Palisades Dental Provides Dental Veneers

March 02, 2021

March 02, 2021 -
American Fork, UT based Palisades Dental would like to make local residents aware that they may get veneers as part of the dental office?s cosmetic dentistry services. Palisades Dental provides a wide range of treatments aimed at helping their patients achieve a perfectly healthy and beautiful smile. The dental office has numerous veneers to choose from, made to match the requirements of each individual patient.

?At Palisades Dental, we know that some patients who suffer from missing teeth think having their smiles restored will be too costly and time-consuming,? the dental office says. ?Contrary to popular belief, restoring your smile to its former glory can be completed in a cost efficient and timely manner. We offer dental implants to patients living in American Fork, Highland, Pleasant Grove and Lehi, UT. You won?t have to hide your smile anymore because our dental implants look and feel like natural teeth. If you have previously had a tooth extracted, then dental implants would be the ideal cosmetic dentistry service to use to restore your smile. We are dedicated to providing our patients with premier-quality dental implants that are fully functional, even with any existing dental work.?

Dr. Jeff Youngquist of Palisades Dental uses only high quality veneers from trusted manufacturers. Each patient is treated as an individual with unique needs and preferences. The results are always top class, and his patients reportedly always leave satisfied. The dental office?s site can be found here:

https://palisadesdentalutah.com/cosmetic-dentistry/.

The dental office offers a number of other cosmetic treatments, such as teeth whitening. Teeth whitening is one of the most popular cosmetic procedures available, and the dental care professionals at Palisades Dental understand this. The team takes great pride in providing a whitening service that will not adversely affect the patient?s teeth, using some of the most advanced techniques and equipment on the market. As one of the best cosmetic dentists in the American Fork area, Dr. Youngquist is committed to success, and his teeth whitening services are known for being successful, safe and cost effective.

?Patients seeking professional in-office teeth whitening should know that we deliver dazzling results every time,? says the veteran dentist. ?Our teeth whitening process is quick, so you?ll only need one visit to complete the procedure, and you won?t have to wait to see results because your smile will be whiter and brighter immediately following the procedure. If you?re sick of waiting around to receive the promised results of a store bought teeth whitener, or you just don?t have the time to wear those pesky mouth guards, then our teeth whitening service is the perfect solution for you.?

Dr. Youngquist has been practicing dentistry for over a decade. He purchased Palisades Dental in 2014 and has been providing the people of American Fork with high quality dental care ever since. He strives to make every patient?s visit pleasant and has gone the extra mile to make the dental office comfortable for everyone, which is one reason why the office is equipped with state-of-the-art equipment. He feels comfortable with patients of any need and can treat any issue. His favorite aspect of dentistry is fixing broken or worn front teeth because of the way he has seen patients? confidence restored thanks to his work.

The dental office has a score of 5/5 Stars on the Google platform, with many patients leaving excellent reviews of the dental office. One patient, Jeffrey says, ?Best dentist in Utah. I've been going to Dr. Youngquist for around 15 years, and his work is spectacular. Never had a filling fall out, no pain or problems from them, and my crowns are rock solid. His team of hygienists are friendly and skilled, and his prices are fair. You won't regret coming here.?

Another patient, Garret, says, ?A good dentist makes all the difference, Jeff is the best dentist I?ve ever had. He explained in detail what was going on with my bite as well as showing me via a mirror and X-rays. I feel like the dentist was very knowledgeable and took his time making sure that the end result would fix my bite issue.?
