

## **Aaron Kosins MD Offers Newport Beach Breast Augmentation**

*February 19, 2021*

February 19, 2021 - PRESSADVANTAGE -

Dr. Aaron Kosins, a plastic surgeon based in California, is pleased to offer Newport Beach breast augmentation to local clientele. Dr. Kosins takes pride in being on the cutting edge of Plastic Surgery techniques and principles, a position which allows him to offer a patient the best possible results.

Breast surgery is a substantial part of the clinic's plastic surgery practice. To quote Dr. Kosins, "Excellent surgery of the breast begins with an understanding of what a beautiful breast looks like. While surgery and techniques can be taught to anyone during their surgical training, I am not sure that the concept of a pretty looking breast can. It has been my experience that different women have very different ideas of what they would like their breasts to look like after surgery."

Dr. Kosin's primary goal with the procedure is to understand the client's preferences in terms of size, incision placement and overall look of the breast. Once the patient's wishes are understood, the clinic will discuss the possibilities of what can be done and how to achieve the client's goals for their appearance.

The clinic offers Natrelle® Breast Implants to their patients. These breast implant devices were recently made available in the United States, and Dr. Kosins acknowledges that he has had extraordinary results using these implants. The range of implants boasts a variety of gel types and shapes which have helped boost the options the clinic can offer patients. Every woman is unique, and the Natrelle® Gel implants offer multiple sizes and projections ? all of which are designed for a soft feel. The clinic points out that, while these implants are more expensive, they can provide a more pleasing appearance and also long-term durability for a large percentage of patients. To quote Dr. Aaron Kosins MD, ?I am pleased to offer Natrelle® as part of my ongoing pursuit of excellent results for my patients.?

The surgeon takes great care in ensuring that the patient?s end result will be an optimally natural appearance. He makes it a point to ensure the best balance of one?s natural tissue when choosing the right shape and size of implant. The clinic also discusses the long-term results and care needed with a patient in order to ensure that they make fully informed decisions. The clinic points out that implants need to be changed every 10 years on average, so a woman in her 20s or 30s can expect to have possibly a half a dozen surgeries during her life on her breasts. This is why the correct decision for the initial augmentation is extremely important.

Dr. Kosins is a graduate of the University of California where he studied Business Administration while completing his Pre-Med qualifications. He then completed a dual Medical Degree (M.D.) and a Masters in Business Administration (MBA) in Entrepreneurship at the University of California, Irvine School of Medicine and Paul Merage School of Business, respectively. After several years of working for biotechnology companies in the field of finance, he returned to the University of California, Irvine to complete the prestigious Integrated Plastic Surgery program. Dr. Kosins continues to further his craft in order to offer his patients the most current and advanced treatment available. He is Board Certified by the American Board of Plastic Surgery.

Dr. Kosins is respected greatly in the field of plastic surgery and has made many academic contributions as well. Journal articles authored by him can be found in the Journal of Plastic and Reconstructive Surgery, the Aesthetic Surgery Journal, Annals of Plastic Surgery and the Canadian Journal of Plastic Surgery. Dr. Kosins has also presented his work at the Plastic Surgery Research Council, the American Society of Peripheral Nerve, the California Society of Plastic Surgeons and the annual Rhinoplasty Society meeting. Dr. Kosins? dedication to his patients is clearly seen in the many positive reviews the clinic receives. Christine Koala states in her 5-Star Google review, ?Fantastic plastic surgeon and expert on rhinoplasty and breast augmentation. Would recommend him to anyone looking for the best plastic surgeon in Orange County. Five stars all the way! Also, his staff is wonderful, and they make you feel like you are part of the

family. Very professional.?
