

St. Johns County Water Heater Plumber Gets Rave Reviews for Its Quick Emergency Response Times

February 25, 2021

ST. AUGUSTINE, FL - February 25, 2021 -

W Smith Plumbing is a St. Augustine area plumber that is used to getting 5-star reviews on their plumbing services. Worth taking note also is that many of these reviews sing the company's praises for their quick plumbing emergency response times. This is very critical if water is leaking into areas that it's not meant to go or someone has clogged drains or cannot use their toilet. Two reviews, in particular, focused heavily on how amazed they were that this plumbing company arrived so quickly after calling them for emergency assistance. One of these reviews even mentioned the company had a plumber there in less than an hour on a late Friday afternoon no less.

In the first of the above-mentioned reviews, Karen Kramer, wrote, "Called William about my clogged toilet at 4:30 on Friday afternoon and he arrived 15 minutes later to fix it! Can't ask for more than that in a plumber! He was very professional and his plumber technician got that toilet unclogged in less than 20 minutes (note to self: never use those Clorox toilet wand cleaners again, cause when they get accidentally flushed, they wreak havoc on a toilet pipe!). Poor William had an injured hand but his technician was great! First time using him but I will never use another plumber again. I highly recommend W. Smith Plumbing!" Heidi Nelson stated, "William was great! We had a plumbing emergency, and he squeezed us in within 2 hours. We had never used him before, so that was even more amazing. We will certainly use him from now on!" Both of these reviews were taken from the company's Google Maps Business Listing which can be seen here at <https://www.google.com/maps?cid=16228138300240399944>. Out of the 34 reviews that have been left on that listing, the company averages a highly commendable 4.8 out of a possible 5-star rating.

The company owner and founder, William Smith, responded by saying, "We at W Smith Plumbing have been proudly providing residential and commercial plumbing services in St. Augustine and the entire St. Johns County area of Florida for many years now. In that time, we have also tried to respond just as fast as possible to our customers who are experiencing any type of plumbing emergency. We are pleased that our online reviews not only acknowledge this fact but also say a lot about the quality of the work that our plumbing

professionals do.?

Smith went on to say that his company's specialty is water heater replacements and new installations that are affordable and reliable. He added that they have many options for their customers when it comes to high-quality and efficient water heater products. They also service what they sell and will even repair water heaters that were supplied and installed by someone else. There is no shortage of glowing reviews on their water heater installation services either. Carri Moore proclaimed, "I had a water heater installed from Mr. Smith. He was very prompt on his arrival and very reasonable on his price. I will be referring him to my friends. Thank you." Other plumbing services that W Smith Plumbing has earned a reputation for doing properly include bathtub and kitchen faucet repair & installation, sewer and drain cleaning, and shower valve repair and installation. They are also very good at performing whole house re-pipes, water line leak repairs, sewer line repairs, and many other custom plumbing services.

The company owner went on to say that he was also very pleased with the fact that many of the reviews left on their plumbing services indicate that they not only are very good at what they do but they also operate with integrity and take a more personal approach with their customers. Tiffany Evans noted, "My husband and I won't go anywhere else for our plumbing issues! William is extremely knowledgeable, professional, and personable. An honest guy who gets the job done right at an affordable price! Highly recommend this company!"
