

Coventry Invisalign Dentist Offers Teeth Straightening Braces During Lockdown

February 24, 2021

February 24, 2021 -
Coventry, United Kingdom based Verum Cosmetic Dentists is pleased to announce that they are offering invisible teeth straightening braces during the current COVID-19 lockdown. They are also offering free virtual consultations in order to reduce the amount of face-to-face contact needed. Those interested can learn more about Verum Cosmetic Dentists by visiting their media room at https://www.pressadvantage.com/story/41058-coventry-invisalign-dentist-continues-cosmetic-dental-treatments-during-lockdown.

It is quite common for people to have crooked, over-crowded or protruding teeth. Fortunately, their teeth do not have to stay this way. If they want to change how their teeth look, they can start by having braces fitted. Improving teeth appearance can give a huge boost to their confidence and self-esteem. However, the benefits that braces bring extend past being purely cosmetic in nature. They help people bite, chew and speak more effectively as well as make teeth and gums more healthy. Verum Cosmetic Dentists understands just how important having healthy teeth is, and they are committed to restoring their patients? smiles. The dental clinic only works with braces that are known to be leaders in their field, namely 3M braces and Damon braces. 3M braces are global leaders in technology, research and innovation, while Damon braces are known

for the comfort and unobtrusiveness that their braces provide.

Verum Cosmetic Dentists additionally provides Invisalign aligners, also known as clear aligners. Invisalign aligners are near-invisible special plastic dental ?braces? that are used to slowly straighten a patient?s teeth. They have gained popularity thanks to their comfort, removability, and imperceptibility. Invisalign aligners are tailored for each individual patient and are adjusted every two weeks to gradually move the patients? teeth into the desired position. Verum Cosmetic Dentists goes one step further and utilizes digital imaging systems. This allows them to create digital teeth scans of their patients? teeth, which they use to implement the Invisalign treatment as effectively as possible.

Invisalign aligners do not have to be worn all day, but it is recommended for people to wear their aligners for at least 20 hours a day. Invisalign treatments usually take around the same time as the traditional metal braces treatment. However, they have the advantage of being comfortable, unnoticeable and temporarily removable. Those interested may learn more about the Invisalign treatment at Verum Cosmetic Dentists by heading over to http://www.verumcosmeticdentists.co.uk/invisalign/.

Another type of braces that Verum Cosmetic Dentists offers is lingual braces. Lingual braces are a great option for people who suffer from teeth overcrowding, gaps between teeth and malocclusion. They are just like metal braces and provide the same benefits that tradition metal braces do. However, they are attached to the back of people?s teeth unlike the standard braces. This means that lingual braces cannot be seen. It makes them ideal for people who wish to improve their teeth?s condition but do not want to be seen wearing braces. Additionally, the body and the bracket pads of Lingual braces are designed to perfectly match each patient?s mouth. This makes sure that Lingual braces fit comfortably into their mouths.

Furthermore, Verum Cosmetics Dentists provides other cosmetic dental services, such as dental implants, veneers, crowns and so on. Patients have left great reviews about the dental services that Verum Cosmetic Dentist provides.

Glenn Mclean says in a 5-Star Google review, ?I heard about Verum Cosmetic Dentists through a friend who, like me, is terrified of dentists and who said he now has no worries about attending for check ups or dental work. I needed implants in my upper jaw and was put at ease when the procedure and timescale was explained to me. The work was completed, and I can now smile again, something I hadn't done for a long time. I would highly recommend you visit Verum Dentists, I now wouldn't go anywhere else.?

Frances Grearson says in another 5-Star Google review, ?Outstanding treatment received. From my first inquiry to the final treatment, I was treated with the utmost consideration. The options were clearly explained,

and each visit to have the procedures to improve my top teeth. Dr. Mathias explained the process. It was done with such expertise. The dental nurses who supported Dr. Mathias were also extremely capable. I am delighted with the outcome and the review appointments.?
