A recent press release highlighted the fact that the 2021 Kia Sportage was now available at Northland Kia. It?s a vehicle that new car shoppers have been very eager to see and those at the dealership feel will become an instant bestseller. This is because of all the features that KIA has built into this 4 door SUV that includes a generous size 2.4L, 4-cylinder engine, and traction stabilizing all-wheel drive. The above-mentioned press release can be seen in its entirety here at https://www.pressadvantage.com/story/40855-calgary-kia-dealership-northland-kia-is-offering-the-2021-kia-sportage-for-sale. This Calgary area dealership will offer this new vehicle in four exciting models too. Included in this list are the Kia Sportage LX, Kia Sportage SX, Kia Sportage EX S, and Kia Sportage EX Premium S. The dealership likes to offer different models in different price ranges, so more people can find it in their budget to own one of these highly-rated vehicles.

In the press release, it noted that there really was not a bad choice among the different 2021 Kia Sportage models. All of them include standard features such as 60:40 fold-down rear seats, dashboard outside temperature display, highway cruise control, tinted glass, remote keyless entry, and steering wheel embedded audio controls. In the press release, it mentioned the subtle differences that set the different Kia

Sportage models apart such as the EX S?s dual dual-zone automatic climate control, the EX Premium S?s leather seats, and the SX?s air-cooled seats and remote start feature. Each model is available in a choice of several different colors too. Popular questions that car shoppers are asking about the 2021 Kia Sportage can be seen here at https://mgyb.co/s/weS34. The general manager at the dealership, Giovanni Gonzalez, says that they are excited about some of the other 2021 Kia?s they now have on the lot too. This includes the Kia Telluride SX, the Kia Seltos LX, and the head-turning Kia Forte LX.

Gonzalez went on to talk about some of the aspects of the company besides the quality of the cars that they sell. He says customers can expect a no-pressure sales experience with a professional staff member who knows how to tune in on what a customer wants instead of trying to force them into a match with the vehicles they have on the lot. They also service what they sell and will give fair value for any trade-ins that a customer wishes to include in a deal.

The quality of the KIA cars that they sell combined with the knowledgeable and customer-friendly approach that their sales staff takes often leads to 5-star reviews such as this one. Jim Grant stated, ?To say I was very pleased with this dealership is an understatement. People make a business and these people are the type that makes your car buying experience the absolute best. The car business is one of the toughest to meet all different attitudes and expectations. These people met all of mine. It is without hesitation that I would strongly recommend you to go see these folks if you?re looking for a vehicle. Oh, and PS, I bought the Kia Stinger GT Limited, and what a dream car. Way to go Northland Kia. Two thumbs up.? Some customers have even had such a pleasant car shopping experience with Northland Kia that they are already looking forward to their next new car purchase with the dealership. Jamie Serafi wrote, ?Fantastic dealership with amazing staff. Very friendly and down-to-earth and non-pushy who have a vested interest in building up relationships with customers for the long term! A very trendy and very refreshing way to do business! Shout out to Matt! Thanks! Looking forward to purchasing my new Sorrento plug-in hybrid when it?s available later in the year! Wouldn?t go anywhere else!?
