

Three New Styles Of Restaurant Tables Released

September 22, 2015

September 22, 2015 -
Restaurant & Cafe Supplies Online, a restuarant furniture supply business in Pacoima, CA, has announced the release of three new styles of restaurant tables. The three models are available in different reclaimed wood styles and feature different bases, but all have the same impeccable quality that the company is known for.

Further, each table has a unique look, since they have reclaimed wood tops.

"We are always looking for new styles and products to add to our collection," says Doug Stoutenburg, owner of Restaurant & Cafe Supplies Online. "These new tables meet the expectations and stringent quality control tests that our clients expect, while also providing at totally one-of-a-kind look for any restaurant."

The three new items are the Highlander reclaimed beech table, the Berlin reclaimed beech table, and the Lobelle reclaimed Douglas fir dining table.

All three items are larger tables, which are suitable for upmarket restaurants. They can easily sit six people comfortably. Because they are made of reclaimed wood, they are also on the higher end of the price scale. The Lobelle has a slightly more rustic feel to it, particularly because it has crossed legs, rather than straight

legs.

RC Supplies Online has long been very popular with many restaurant owners. Customers respect the fantastic quality of products that the company delivers, their amazing customer service and their attention to detail.

"We received our tables last week and we love them! Thank you so much! If we ever expand our coffee house, we will order more," said Mallory Woods of Hoboken Coffee Roasters.

The full list of products can be seen on rcsuppliesonline.com. The new products are listed here too. Customers are encouraged to browse through the full collection to find the table solutions best for them. Financial assistance is available on certain products, which is particularly suitable for newly started restaurants.
