Ant-Ser Pest Control Inc. Provides Contactless Pest Control Services

February 23, 2021

February 23, 2021 -
Ant-Ser Pest Control Inc. of Bradenton Florida is announcing new pest control services in the local area. While Ant-Ser Pest Control has been serving customers for 29 years they understand that the recent events with pandemic have caused some to feel nervous about using services that are provided by other people, or having others enter their home. Ant-Ser Pest Control Inc. has announced Contactless Pest Control services.

Hoping to alleviate some of the concern about others entering the home, business and grounds Jeff A., owner announced, "Contactless pest control is the best way that the business owner or homeowner can still recieve the necessary pest control treatments and be free of concern regarding having anyone on or in your property. We take all the necessary recommended precautions by the WHO and can serve our customers without having to contact them. Contactless pest control provides all the necessary treatments without exposing anyone unnecessarily. The majority of our customers appreciate the service and respect the arrangement. We've been serving the community for over 29 years, we will not let these event stop us now."

While some may find the idea of contactless pest control to be foreign and even unusual, the solution helps limit physical interactions between clients and service providers. By limiting gatherings and cross

contaminiation the method provides benefits to employees and home and business owners. By providing the easiest and most convenient methods of communication it also enhances the safaty of families, business owners and employees.

Serving the Sarasota and Bradenton area of Florida, the "Ant-Ser Man' has been providing all the answers to residents local pest problems. From hard to deal with Bed Bug Treatments to termites and rodents, the Ant-Ser man has worked hard to provide his clients with safe and effective pest control measures. Services include residential services and commercial services. The owner continues "Each situation is unique, residential services may depend upon geography and location and commercial environments will have their own unique situation. We make sure everyone is satisfied and now we practice contactless pest control and its even easier to get the job done with less hassle." They also treat the safety of their customers as their priority by adhering to all the essential safety guidelines set by the health centers of the region and country.
