

Local Dental Assisting School Launches New Website

February 24, 2021

February 24, 2021 - PRESSADVANTAGE -

Pinellas Park, Fla. ? The Dental Assisting Institute is thrilled to announce the launch of its new and improved website. The local dental assisting school officially launched the new site in January 2021. Students and prospective students will find the new site easy to navigate, thanks to the new crisp design. The Dental Assisting Institute is a leading dental assisting training center and has proven to be a reliable source for continuing dental assisting education in the Pinellas Park and surrounding Tampa Bay area.

Although the new website retains the school's brand, it features an updated look that has caused it to stand out among competitors. Prospective dental assistant students can easily sign up for classes and make payments using the new website's easy-to-follow class options. The classes are divided by class type, day and time, allowing students to ensure they are selecting the correct class. Additionally, the website is designed to give prospective students a glimpse into the Dental Assisting Institute's facilities and staff through the use of photos and information.

By making information easily accessible and simple to understand, the updated site offers a fresh new perspective on the institute. The new website is engaging and easy to follow through the interactive design.

Additionally, the website clearly outlines the payment options for students, including CareCredit Financing and in-house financing. Knowing this gives students an idea of the expenses they will be responsible for and allows them to feel more encouraged to attend classes.

Dental Assisting Institute has been serving Pinellas Park and surrounding Tampa Bay areas for more than 20 years with a mission to certify dental assistants in the State of Florida. As the first privately-owned, Florida-approved dental weekend X-Ray and Expanded Function Dental Auxiliary (EFDA), Dental Assisting Institute offers classes at a variety of times to easily meet the needs of students. The institute offers a variety of classes for those in the dental field, including Radiology, EFDA and cardiopulmonary resuscitation (CPR) certifications. For more information about dentistry classes, give Dental Assisting Institute a call at 727-547-4899 or visit them online at <https://dai-fl.com>.
