Arrowhead Clinic in Atlanta Urges Accident Victims to Receive Timely Treatment

February 24, 2021

ATLANTA, GA - February 24, 2021 -
Arrowhead Clinic in Atlanta is a trusted chiropractic clinic for treating auto accident injuries. The Atlanta chiropractic clinic explains the need for timely treatment of injuries sustained in a rear-end collision, which can worsen over time. You can read their blog post here: https://www.arrowheadclinic.com/atlanta/injuries-from-a-rear-end-collision. Dr. Summer Turner, one of the top auto accident doctors in Atlanta, says that rear-end collision injuries pose a risk of reduced mobility and chronic pain, preventing the victim from doing their job or enjoying hobbies.

Emphasizing the need for early diagnosis of injuries, Dr. Turner explains, ?The sooner you detect and treat any injuries you might have after an accident, the more likely you will make a full recovery.?

The best Atlanta car accident chiropractor specializes in whiplash treatment, which is an injury to the neck, shoulder, or upper back caused by the snapping of the head and neck due to a sudden jerk. Whiplash is a common injury in a rear-end accident due to the sudden, unexpected impact on their vehicle that causes ?soft tissue damage to the muscles and ligaments of the neck and shoulder, stretching them beyond their normal range in a fraction of a second.?

Top auto accident doctors in Atlanta are aware of the gravity of the injury that may linger for days or weeks. The pain may create weakness, numbness, or tingling sensation. This is an indication that something is wrong with the body. Dr. Turner identifies whiplash symptoms as stiffness, headaches, dizziness, neck pain, and muscle spasm.

The Atlanta whiplash doctor identifies back injury as the most common rear-end collision injury, which can linger for a lifetime. ?The impact from being rear-ended often compresses the spine, putting pressure on the vertebrae.

Bulging and herniated discs are other common injuries sustained in a rear-end collision, which can cause pain, numbness, or tingling in the back or other parts of the body.

Arrowhead Clinic in Atlanta has a flawless record in treating victims of auto accidents. They have the best team of car accident chiropractors who are experienced in diagnosing and treating rear-end collision injuries. The top Atlanta auto accident chiropractors design a customized treatment plan tailored to the patient?s needs. Victims of car accidents should schedule a free consultation with Arrowhead Clinic.
