Melbourne is one of the top 100 most expensive cities in the world. So, of course, the cost of basic services like education, cleaning, etc. is more here compared to other, smaller cities in Australia. But, at the same time, the need for regular cleaning, especially for business premises, cannot be simply ignored. Local stores in Melbourne, for instance, receive hundreds of customers daily, who bring all kinds of dirt and dust on their shoes, making the place not so clean and healthy. Without regular & proper cleaning, this will not only make the business place look bad but also put the safety of people, customers & staff at risk. But, it

leaves the dilemma on how one gets the best commercial cleaning in Melbourne given the high cost.

Clean Group is the answer. The company has been catering to the cleaning needs of its fellow businesses in and around Melbourne for over 20 years now. It specializes in delivering bespoke advanced office cleaning solutions to fit the particular needs & budget of a business.

Besides office cleaning and medical cleaning, Clean Group also provides construction cleaning services through a team of dedicated after builders cleaners, who have relevant experience in the cleaning of buildings post-construction and renovation.

?Cleaning a new building or a property after recent innovation is not easy. Your builders might have left a lot of debris and dirt that?s not easy to clean. Therefore, you can't rely on inexperienced cleaners for such a job. We at Clean Group provide complete after builders cleaning at affordable rates,? says a company representative.
