Valencia, California: Passionate Care LLC announces that their Premium Anti-aging Anti-wrinkle night cream is now available once again on Amazon. After running out and not being able to fulfill demand, The Healing Touch reworked its manufacturing schedule to make sure that their customers were not waiting for weeks for their next jar.

"We would love to say that we are not going to run out this month but that will probably not be the case," stated The Healing Touch CEO Raul Meza. "What we found is that our customers are so concerned about missing out on their next jar that they are often buying two to three jars a time. This provides them with a three month supply but it also makes us run out faster. This usually means that when some people go to acquire their next month's jar, there isn't any."

The Healing Touch includes encapsulated retinol in their best anti wrinkle product. To date this is still the most research backed anti-aging, anti-wrinkle ingredient in the market today. Along with other key ingredients including Vitamin C serum, this has been one of The Healing Touches most sought after products. Due to its fast delivery and five star customer service, The Healing Touch has chosen Amazon as its partner of choice for fulfilling its customer's orders.

"We are already working on finding a second manufacturing facility to assist in avoiding these mad purchasing rushes," stated Meza. "We have even brought to market our 2oz size which is double the amount of our current jar. This was done purposefully to help our current customers have a bigger supply at home."

All of The Healing Touch products including their extensive line of scar gels and scar removals can be found on Amazon.
