March 02, 2021 - PRESSADVANTAGE -

February 2021, Bluffton, SC - Off-Island Dental has good news for everyone, for they now provide Dental Crown in just one visit.

A dental crown, also called a cap, is for a damaged tooth. It can be made of either porcelain, ceramic, metal, composite resin, or a combination of materials. The procedure is usually recommended to retain the shape, size, function, and appearance of teeth.

Off-Island Dental says same-day crowns are becoming increasingly popular nowadays for their array of benefits. Unlike traditional dental crowns, a same-day crown procedure is carried out in just one day. With cutting-edge technology, the dental professional can also create a precise custom crown for each client. This procedure is right for people who have no time for frequent dental visits.

The same-day crown procedure also starts with a physical examination of the teeth. The procedure will only proceed if the dentist agrees that a crown is the most suitable procedure for the affected tooth or teeth.

The professionals at Off-Island Dental perform Same-Day Dental Crown Bluffton, SC using advanced technology, including computer-aided design and computer-aided manufacturing (CAD/CAM). With this technology, a digital image of the tooth is taken and used to design the same-day crown. After a few hours, the dental crown is cemented permanently to repair the damaged tooth. After the procedure, the patient can go home with a new smile.

As Bluffton's trusted family and cosmetic dentist, Off-Island Dental is the most preferred clinic for same-day crowns. With its years of service, the dental professional has built a reputation for great service and care for every patient.
