Arrowhead Clinic in Hinesville Gives Reasons To See A Chiropractor After A Car Accident

March 02, 2021

Hinesville, Georgia - March 02, 2021 -
Arrowhead Clinic in Hinesville, GA, has recently posted a blog post that explains the reasons for the urgency to see a car accident chiropractor after an accident. Read the blog post here: https://www.arrowheadclinic.com/hinesville/how-soon-after-an-accident-should-i-see-a-chiropractor.
Addressing the need to seek immediate medical care, Dr. Timothy Howard explains that a diagnosis immediately after the accident is important to rule out injuries that might not show up until days or weeks after the car crash.

The top car accident chiropractor in Hinesville has a flawless record of treating whiplash, which can take days or weeks to present symptoms. Dr. Howard explains that a primary doctor is experienced in treating minor injuries and typically prescribes painkillers to mask the pain, but a chiropractor is trained in determining the full extent of the damage and treating the source of the injury.

The Hinesville chiropractor warns that any delay in seeing a chiropractor can hurt the victim physically and financially. Dr. Howard warns a full recovery may require more extensive treatment, adding, ?The longer you wait to receive treatment, the harder it could be for you to make a complete recovery.?

Any delays in treatment could aggravate injuries, which may require surgery later for a full recovery. The Hinesville car accident doctor stresses the need for documentation of injuries to recover damages against the at-fault party. The at-fault party could argue that the injuries were not from the accident if there's a delay in seeking medical treatment or lack of medical records.

?The longer you wait to have your injuries documented, the easier it will be for insurance companies to dispute the validity of your claim.? Some states require medical documentation of injuries by a medical professional within 14 days. Any failure to do so could affect the victim?s ability to claim certain insurance benefits or win a court case.

A victim must seek a top chiropractor for car accident treatment in Hinesville for proper care and timely recovery. Arrowhead Clinic in Hinesville is widely popular for chiropractic care, with over 40 years of experience treating accident victims.

Any car accident victim in Hinesville, Georgia, should schedule a free consultation with the leading whiplash doctors at Arrowhead Clinic to ease their pain and recover injuries.
