

Nexx Health Announces Spring Special Offer: Hydrofacial & Dermaplane Session with a Green Tea Infused Mask

March 11, 2021

March 11, 2021 - PRESSADVANTAGE -

Nexx Health, a company based in Boca Raton, FL, is happy to announce their Spring Special Offer, which is a Hydrofacial & Dermaplane Session with a Green Tea Infused Mask. This offer starts with a microdermabrasion facial. After a consultation, classic double cleanse, and customized equalizer, the aesthetician will select among several nutrient spiked combinations to infuse the dermis. The procedure is completed with a green tea infused mask and moisturizer. This is particularly recommended to people who have dry or mature skin. When LED light therapy is included, the appearance of redness/ blemishes is reduced. Or a hyaluronic acid infused HYDROJELLY? mask may be added for ultimate hydration.

A spokesperson for Nexx Health says, "At Nexx Health, our patients reset their bodies and minds to feel and look their best. Combining the comfort of a luxury spa with the advanced technology of a cutting-edge medical facility, our aesthetic physicians treat diverse skincare problems while chipping away at those daily stressors that slow us all down. This spring, take advantage of our Hydrofacial & Dermaplane Session with a Green Tea Infused Mask."

Nexx Health offers various kinds of services. These include facials, skin enhancements, treatments for the eyes and/or eyebrows, massage, massage enhancements, body treatments, body treatment enhancements, injectables, medical marijuana, hormone replacement therapy, yoga, and IV therapy. More about their various services can be gleaned from their GMB posts.

Facials are among the most popular services offered by Nexx Health. These include the classic facial, microdermabrasion facial, hydrofacial, men's facial, teen facial, 24k gold anti-aging facial, 24k gold anti-aging facial with microdermabrasion, Botox face lift facial, Nexx level signature facial, back facial, chemical peel consultation, brightening eye and lip acid peel, simple CBD facial with microdermabrasion, anti-aging glycolic acid chemical peel, blemish prone skin salicylic chemical peel, redness prone skin mandelic chemical peel, texture improvement pyruvic acid chemical peel, micro-needling for acne scars, micro-needling for dark spots, and micro-needling for wrinkles and fine lines.

The microdermabrasion facial makes use of a skin care technology that performs light abrasion of the skin using a diamond headed wand, eliminating up to 30 percent of dead skin cells that are stuck on the skin surface. Net is mechanical suction to make the client feel rejuvenated.

Meanwhile, dermaplaning is a skin treatment method that employs an exfoliating blade to skim dead skin cells and hair from the client's face. This procedure is also known as microplaning or blading. It can also be used to get rid of the "peach fuzz," which are the short, soft hairs found on the face. Dermaplaning is applicable for any skin type and for anyone.

The green tea face mask has various advantages. This is because green tea is known to have a number of potential benefits for the skin. The antioxidants epigallocatechin gallate (EGCG) and epicatechin gallate (ECG) are two of the potent catechins found in green tea. Such antioxidants may be able to prevent skin cancer as shown in some studies. These antioxidants may also fight against premature aging since they may be able to rejuvenate dying skin cells. Green tea also has anti-inflammatory characteristics that may help reduce skin redness, skin irritation, and swelling. It may also be effective in preventing acne and oil skin. And green tea contains a number of vitamins, including vitamin E, which may hydrate the skin.

Nexx Health takes a four-pronged approach in providing their services to clients. These are the Nexx level care, education, services, and products. Their high-trained professionals offer the best possible care, ensuring that they communicate properly with clients. They also ensure the clients are educated about health and having an improved quality of life. And they ensure that their services and products are of the highest quality to ensure wellness for the body, mind, and spirit.

Those who are interested in learning more about the various services offered by Nexx Health may want to check out their website, or contact them on the phone or through email. They are open from 9:00 am to 7:00 pm, from Monday to Saturday; and from 10:00 am to 5:00 pm on Sundays. Those who want to know their GMB location may want to check out their Google Maps page.
